# "When we read what their college will cost...we bought the maximum life insurance available in the IMS Members' Insurance Program..."

"...Oh, we expect to be there—proud as can be—when they enter college. But, just in case one of us isn't...the insurance coverage will be."

If a breadwinner is no longer around to provide for family shelter and the children's college education...life insurance had better be.

Our group term life insurance can supplement your insurance portfolio so that your family has the protection it needs now—and for the future.

As a member, you can fill your insurance needs at low group rates. You can get family coverage, too. And if you change jobs, your group insurance automatically goes with you, so there's no lapse in your insurance coverage.

Check *your* insurance portfolio. Will it meet your family's future needs? If not, call or write the Administrator.

**UP TO $240,000 IN TERM LIFE INSURANCE PROTECTION IS AVAILABLE TO IMS MEMBERS.**

The Annual Index to the Statistical
Literature of the World

# CURRENT INDEX TO STATISTICS

## APPLICATIONS, METHODS AND THEORY

## VOLUME 10 (1984) – NOW AVAILABLE

- Nearly 8400 articles from "core" and "related" journals and books indexed for 1984.
- Complete coverage of 63 journals in statistics and related fields.
- Statistics articles selected and indexed from over 300 other journals.
- Subject index lists each article alphabetically according to each *important word* in its title.
- Subject index also lists articles alphabetically according to *key words* not appearing in the title.
- Author index lists each article under the name of each author.
- Reasonable prices:

| | |
|---|---|
| IMS/ASA Members | —$15 |
| Other individuals | —$20 |
| Other institutions | —$40 |

Published jointly by the Institute of Mathematical Statistics and the American Statistical Association. Volumes 1-10 are available now at the above prices. Publication of Volume 11(1985) is expected late in 1986. Orders for Volume 11 are now being accepted at the above prices, with shipping upon availability. Please specify applicable rate and volume number(s) desired. Order prepaid from:

Probability Theory and Stochastics

## Band 70 Heft 2 1985

157 **P.J. Fitzsimmons, B. Fristedt, B. Maisonneuve:** Intersection and Limits of Regenerative Sets

175 **P.J. Fitzsimmons, B. Fristedt, L.A. Shepp:** The Set of Real Numbers Left Uncovered by Random Covering Intervals

191 **L. Giraitis, D. Surgailis:** CLT and Other Limit Theorems for Functionals of Gaussian Processes

213 **J. Horowitz:** Measure-Valued Random Processes

237 **P. Hall:** Distribution of Size, Structure and Number of Vacant Regions in a High-Intensity Mosaic

263 **I.Z. Ruzsa, G.J. Székely:** No Distribution is Prime

271 **E. Giné, M.G. Hahn:** The Lévy-Hinčin Representation for Random Compact Convex Subsets Which are Infinitely Divisible Under Minkowski Addition

289 **J. Beck:** Lower Bounds on the Approximation of the Multivariate Empirical Process

307 **M. Peligrad:** Convergence Rates of the Strong Law for Stationary Mixing Sequences

## Band 70 Heft 3 1985

315 **D.A. Dawson, K. Fleischmann:** Critical Dimension for a Model of Branching in a Random Medium

335 **M. Cranston:** Lifetime of Conditioned Brownian Motion in Lipschitz Domains

341 **R. LePage, B.M. Schreiber:** An Iterated Logarithm Law for Families of Brownian Paths

345 **P. Bugiel:** A Note on Invariant Measures for Markov Maps of an Interval

351 **R.A. Doney:** Conditional Limit Theorems for Asymptotically Stable Random Walks

361 **M.G. Hahn, E.T. Quinto:** Distances Between Measures from 1-Dimensional Projections as Implied by Continuity of the Inverse Radon Transform

381 **T.L. Lai, C.Z. Wei:** Orthonormal Banach Systems with Applications to Linear Processes

395 **F. Lombard, D.M. Mason:** Limit Theorems for Generalized Sequential Rank Statistics

411 **A.T. Martinsek:** Comparison of Some Sequential Procedures With Related Optimal Stopping Rules

417 **R.F. Bass, P.S. Griffin:** The Most Visited Site of Brownian Motion and Simple Random Walk

437 **Y. Chow:** Estimation of Analytic Functions

445 **N.T. Andersen:** The Central Limit Theorem for Non-Separable Valued Functions

457 **R. Yanushkevichius, O. Yanushkevichiene:** Stability of P. Lévy's Characterization Theorem

## Band 70 (Schluß-)Heft 4 1985

473 **I. Berkes, H.P. Rosenthal:** Almost Exchangeable Sequences of Random Variables

509 **C. Cocozza-Thivent:** Processus des misanthropes

525 **D.A. Darling:** Contribution to the Optimal Stopping Problem

535 **W.E. Pruitt, S.J. Taylor:** The Local Structure of the Sample Paths of Asymmetric Cauchy Processes

563 **J.H.J. Einmahl, D.M. Mason:** Bounds for Weighted Multivariate Empirical Distribution Functions

573 **D. Nualart, M. Sanz:** Malliavin Calculus for Two-Parameter Wiener Functionals

591 **R.F. Bass:** Law of the Iterated Logarithm for Set-indexed Partial Sum Processes with Finite Variance

609 **Y. Le Jan:** On Isotropic Brownian Motions

621 **D. Surgailis:** On the Multiple Stable Integral

# STATISTICAL SCIENCE

**a review journal of the institute of mathematical statistics**

EXECUTIVE EDITOR: **Morris H. DeGroot,** *Carnegie-Mellon University*
EDITORS: **David R. Brillinger,** *University of California, Berkeley*
**J. A. Hartigan,** *Yale University*
**Ingram Olkin,** *Stanford University*

On the occasion of its fiftieth anniversary, the Institute of Mathematical Statistics announces publication of *Statistical Science,* a new quarterly review journal in statistics and probability. *Statistical Science* will present the full range of contemporary statistical thought at a modest technical level accessible to the broad community of practitioners, teachers, researchers, and students in statistics and probability.

## Featuring

Volume 1 Number 1 February 1986

Freedman & Navidi on
MODELS FOR ADJUSTING THE CENSUS

Efron & Tibshirani on
THE BOOTSTRAP

Le Cam on
THE CENTRAL LIMIT THEOREM
AROUND 1935

Geisser on

GEORGE E. P. BOX

Genest & Zidek on
COMBINING PROBABILITY
DISTRIBUTIONS

Interviews with
DAVID BLACKWELL & T. W. ANDERSON

- discussions of methodological and theoretical topics of current interest and importance,
- surveys of substantive research areas with promising statistical applications,
- evaluations of research papers in specific areas of statistics and probability,
- discussions of classic articles from the literature with commentary on their impact on contemporary thought and practice,
- comprehensive book reviews, and
- interviews with distinguished statisticians and probabilists.

*Statistical Science* joins the Institute's distinguished journals, *The Annals of Statistics* and *The Annals of Probability,* in February 1986 and is included as a privilege of membership. Nonmember subscriptions are available to individuals and organizations. All subscriptions to the *Annals* include a subscription to *Statistical Science* for 1986. For additional information on how to receive *Statistical Science,* please write to the IMS Business Office.
