

THE ANNALS *of* STATISTICS

AN OFFICIAL JOURNAL OF THE
INSTITUTE OF MATHEMATICAL STATISTICS

High Dimensional Inference and Random Matrices

Articles

- Random matrix theory: A program of the statistics and applied mathematical sciences institute (SAMSI) PETER BICKEL 2551
- A CLT for regularized sample covariance matrices GREG W. ANDERSON AND OFER ZEITOUNI 2553
- Covariance regularization by thresholding PETER J. BICKEL AND ELIZAVETA LEVINA 2577
- High-dimensional classification using features annealed independence rules
JIANQING FAN AND YINGYING FAN 2605
- Multivariate analysis and Jacobi ensembles: Largest eigenvalue, Tracy–Widom limits and rates of convergence IAIN M. JOHNSTONE 2638
- Operator norm consistent estimation of large-dimensional sparse covariance matrices NOUREDDINE EL KAROUÏ 2717
- Spectrum estimation for large dimensional covariance matrices using random matrix theory NOUREDDINE EL KAROUÏ 2757
- Finite sample approximation results for principal component analysis:
A matrix perturbation approach BOAZ NADLER 2791
- Flexible covariance estimation in graphical Gaussian models
BALA RAJARATNAM, HÉLÈNE MASSAM AND CARLOS M. CARVALHO 2818
- Statistical eigen-inference from large Wishart matrices
N. RAJ RAO, JAMES A. MINGO, ROLAND SPEICHER AND ALAN EDELMAN 2850
- Inference for eigenvalues and eigenvectors of Gaussian symmetric matrices
ARMIN SCHWARTZMAN, WALTER F. MASCARENHAS AND JONATHAN E. TAYLOR 2886
