

# BAYESIAN ANALYSIS

*Special Issue: Papers from the 2010 ISBA World Meeting*

An enriched conjugate prior for Bayesian nonparametric inference . . . . .	
. . . . . S. Wade, S. Mongelluzzo, and S. Petrone	359
Hyper- $g$ Priors for Generalized Linear Models . . . . .	
D. Sabanés Bové and L. Held	387
Recent advances on Bayesian inference for $P(X < Y)$ . . . . .	
. . . . . L. Ventura and W. Racugno	411
Goodness-of-Fit of Conditional Regression Models for Multiple Imputation . . . . .	
. . . . . S. Cabras, M. E. Castellanos and A. Quirós	429
Flexible Paleoclimate Age-Depth Models Using an Autoregressive Gamma Process	
M. Blaauw and J. A. Christen	457
A Bayesian Surrogate Model for Rapid Time Series Analysis and Application to	
Exoplanet Observations . . . . . E. B. Ford, A. V. Moorhead & D. Veras	475
