

# BAYESIAN ANALYSIS

A Stochastic Partitioning Method to Associate High-dimensional Responses and Covariates.....	S. Monni and M. G. Tadesse	413
Comment on Article by Monni and Tadesse.....	H. Chipman, E. George, R. McCulloch	437
Comment on Article by Monni and Tadesse.....	C. Fraley	439
Comment on Article by Monni and Tadesse.....	H. Li	449
Comment on Article by Monni and Tadesse.....	H. Stern	453
Rejoinder.....	S. Monni and M.G. Tadesse	457
Bayesian Analysis for Emerging Infectious Diseases.....	C. P. Jewell, T. Kypraios, P. Neal and G. O. Roberts	465
Flexible Univariate Continuous Distributions.....	F. A. Quintana, M.F.J. Steel and J. T. A. S. Ferreira	497
Prediction of Pregnancy: A Joint Model for Longitudinal and Binary Data.....	J. Horrocks, M. van Den Heuvel	523
Efficient Utility-based Clustering over High Dimensional Partition Spaces.....	S. Liverani, P. E. Anderson, K. D. Edwards, A. J. Millar and J. Q. Smith	539
Nonparametric estimation of the distribution function in contingent valuation models.....	D. S. Leslie, R. Kohn and D. G. Fiebig	573
New Axioms for Rigorous Bayesian Probability.....	M. J. Dupré and F. J. Tipler	599
Bayes One-Sample and One-Way Random Effects Analyses for 3-D Orientations with Application to Materials Science.....	M. A. Bingham, S. B. Vardeman, D. J. Nordman	607
