

2 POPULAR MATHEMATICS TITLES

PEIRCE, FOSTER *Short Table of Integrals, 4th Edition*

Classic text which includes additional definite integrals, further information on Bessel, and other transcendental functions. Expanded numerical tables.

TAYLOR *Advanced Calculus*

Thorough treatment emphasizing concepts and basic principles of analysis—those properties of the real number system which support the theory of limits and continuity.

PhD MATHEMATICIANS

Our Systems Analysis Department has openings for PhD Mathematicians who have a lasting interest in some fields of Mathematics such as Algebra, Geometry, Measure Theory, Topology, Differential Equations, Numerical Analysis, or Statistics. Association will be with others with similar educational background engaged in the study of challenging problems vital to the nation's welfare.

The work is of an independent research nature with a minimum of supervision by people of similar interests who are aware of the needs of research personnel.

Sandia Corporation, engaged in research and development of nuclear weapons, is located in Albuquerque, N.M.—a metropolitan city of 208,000 famous for its splendid climate and its outstanding recreational and cultural attractions. Excellent working conditions and liberal employee benefits, including exceptionally generous paid vacations and holidays; retirement, hospital, and insurance plans.

ALBUQUERQUE, NEW MEXICO

Announcing A *NEW* expanded program for the translation and publication of four leading Russian physics journals. *Published* by the American

Institute of Physics with the cooperation and support of the National Science Foundation.

Soviet Physics—Technical Physics. A translation of the "Journal of Technical Physics" of the Academy of Sciences of the U.S.S.R. 12 issues per year, approximately 4,000 Russian pages. Annually, \$90.00 domestic.

Soviet Physics—Acoustics. A translation of the "Journal of Acoustics" of the Academy of Sciences of the U.S.S.R. Four issues per year, approximately 500 Russian pages. Annually, \$20.00 domestic. The 1955 issues of "Journal of Acoustics" U.S.S.R. will also be published. Will consist of two volumes, approximately 500 pages, and the subscription price will be \$20.00 for the set.

All journals are to be complete translations of the 1956 issues of their Russian counterparts. The number of pages to be published represents the best estimate based on all available information now at hand.

Translated by competent, qualified scientists, the publications will provide all research laboratories and libraries with accurate and up-to-date information of the results of research in the U.S.S.R.

Soviet Physics—Doklady. A translation of the "Physics Section" of the Proceedings of the Academy of Sciences of the U.S.S.R. Six issues per year, approximately 900 Russian pages. Annually \$25.00 domestic.

Soviet Physics—JETP. A translation of the "Journal of Experimental and Theoretical Physics" of the Academy of Sciences of the U.S.S.R. Twelve issues per year, approximately 2,600 Russian pages. Annually \$60.00 domestic. Back issues of Volume I and II are available.

Subscriptions should be addressed to the

MEMOIRS 25
**ASYMPTOTIC FORMS OF
WHITTAKER'S CONFLUENT
HYPERGEOMETRIC
FUNCTIONS**

by

A. ERDÉLYI and
C. A. SWANSON

The principal results of the paper are uniform asymptotic forms for Whittaker's confluent hypergeometric functions $M_{k,m}(4kx)$ and $W_{k,m}(4kx)$ for unrestricted real values of x when k is large and $m \geq 0$. Two asymptotic forms for each function are obtained. Simplified asymptotic forms for restricted x -intervals are deduced from the main results.

Journals Published by the American Mathematical Society

Bulletin of the American Mathematical Society

This journal is the official organ of the Society. It reports official acts of the Society and the details of its meetings, with abstracts of all research papers presented. It contains some of the officially invited addresses presented before the Society, and reviews of advanced mathematical books.

The subscription price is \$7.00 per annual volume of six numbers.

Invited addresses offered for publication should be sent to B. J. PETTIS, Department of Mathematics, Tulane University, New Orleans 18, La.; Research problems to G. B. PRICE, Department of Mathematics, University of Kansas, Lawrence, Kan.; Book reviews to J. C. OXTOPY, Bryn Mawr College, Bryn Mawr, Pa. All other communications to the editors should be addressed to the Managing Editor, G. B. PRICE.

Proceedings of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics and is devoted principally to the publication of original papers of moderate length.

The subscription price is \$11.00 per annual volume of six numbers.

Papers in algebra, number theory, logic and foundations should be sent to IRVING KAPLANSKY, Eckhart Hall, University of Chicago, Chicago, Ill.; in geometry and topology to HANS SAMELSON, Department of Mathematics, University of Michigan, Ann Arbor, Mich.; in probability, real variables and abstract analysis to SHIZUO KAKUTANI, Leet Oliver Memorial Hall, Yale University, New Haven 11, Conn.; in other branches of analysis, applied mathematics, and all other fields to R. P. BOAS, Lunt Building, Northwestern University, Evanston, Ill. All other communications to the editors should be addressed to the Managing Editor, IRVING KAPLANSKY.

Transactions of the American Mathematical Society

This journal is devoted entirely to research in pure and applied mathematics, and includes in general longer papers than the PROCEEDINGS.

Three volumes of two numbers each will be published in 1957. The subscription price is \$8.00 per volume.

Papers in geometry, differential equations and functions of complex variables should be sent to S. S. CHERN, Department of Mathematics, Massachusetts Institute of Technology, Cambridge 37, Mass.; in algebra and number theory to A. H. CLIFFORD, Newcomb College, Tulane University, New Orleans 18, La.; in analysis (except for differential equations and functions of a complex variable), applied mathematics and probability to Professor MARK KAC, White Hall, Cornell University, Ithaca, New York; in topology, logic and foundations to SAMUEL EILENBERG, Hamilton Hall, Columbia University, New York 27, N. Y. All other communications to the editors should be addressed to the Managing Editor, SAMUEL EILENBERG.

Memoirs of the American Mathematical Society

This series is devoted to the publication of research monographs in pure and applied mathematics. The memoirs are issued serially, but not periodically. Each issue consists of either a single monograph or a group of cognate papers and is priced separately according to size and cost of publication. The editorial standards for acceptance are the same as for the TRANSACTIONS and manuscripts intended for publication should be submitted to the appropriate editor of the TRANSACTIONS. All other communications to the editors should be addressed to S. S. CHERN.

Mathematical Reviews

This journal contains abstracts and reviews of the current mathematical literature of the world. It is sponsored by thirteen mathematical organizations, located both in the United States and abroad.

MATHEMATICAL REVIEWS is published monthly, excepting July. The subscription price is \$35.00 per annual volume of eleven numbers.

OFFICIAL COMMUNICATIONS

MEETINGS OF THE SOCIETY

Abstracts for all meetings of the Society should be sent to the American Mathematical Society, 190 Hope St., Providence 6, R. I.

WASHINGTON, D. C., October 26, 1957.

Abstracts must be received not later than September 12. By invitation of the Committee to Select Hour Speakers for Eastern Sectional Meetings there will be an address by Professor W. H. Gottschalk entitled *Minimal sets: an introduction to topological dynamics*.

LOS ANGELES, CALIFORNIA, November 15–16, 1957.

Abstracts must be received not later than October 2. By invitation of the Committee to Select Hour Speakers for Far Western Sectional Meetings there will be an address by Professor Harold Levine entitled *Recent developments in the theory of wave motion*.

CORAL GABLES, FLORIDA, November 29–30, 1957.

Abstracts must be received not later than October 2. By invitation of the Committee to Select Hour Speakers for Southeastern Sectional Meetings there will be an address by Professor A. H. Clifford.

COLUMBIA, MISSOURI, November 29–30, 1957.

Abstracts must be received not later than October 2.

ANNUAL MEETING, CINCINNATI, OHIO, January 28–30, 1958.

Abstracts must be received not later than December 13.

J. W. GREEN, *Secretary of the Society*
