

BERNOULLI

Official Journal of the Bernoulli Society for Mathematical Statistics and Probability

Volume Thirteen Number One February 2007 ISSN: 1350-7265

CONTENTS

Papers

- CAI, T.T., LOW, M.G. and ZHAO, L.H. 1
Trade-offs between global and local risks in nonparametric function estimation
- BOJDECKI, T., GOROSTIZA, L.G. and TALARCZYK, A. 20
Occupation time fluctuations of an infinite-variance branching system in large dimensions
- MANSTAVIČIUS, M. 40
Hausdorff–Besicovitch dimension of graphs and p -variation of some Lévy processes
- OSĘKOWSKI, A. 54
Inequalities for dominated martingales
- BRIAND, P., LEPELTIER, J.-P. and SAN MARTÍN, J. 80
One-dimensional backward stochastic differential equations whose coefficient is monotonic in y and non-Lipschitz in z
- PONS, O. 92
Estimation of absolutely continuous distributions for censored variables in two-sample nonparametric and semi-parametric models
- COX, A.M.G. and HOBSON, D.G. 114
A unifying class of Skorokhod embeddings: connecting the Azéma–Yor and Vallois embeddings
- MUSTAPHA, S. 131
Gambler’s ruin estimates for random walks with symmetric spatially inhomogeneous increments
- AOYAMA, T. and MAEJIMA, M. 148
Characterizations of subclasses of type G distributions on \mathbb{R}^d by stochastic integral representations

(continued on page ii)

The papers published in Bernoulli are indexed or abstracted in *Current Index to Statistics*, *Mathematical Reviews*, *Statistical Theory and Method Abstracts-Zentralblatt (STMA-Z)*, and *Zentralblatt für Mathematik* (also available on the *MATH via STN* database and *Compact MATH CD-ROM*). A list of forthcoming papers can be found on the World Wide Web at <http://isi.cbs.nl/bernoulli/future.htm>

Official Journal of the Bernoulli Society for Mathematical Statistics and Probability

Volume Thirteen Number One February 2007 ISSN: 1350-7265

CONTENTS

(Continued)

LING, S., TONG, H. and LI, D.	161
Ergodicity and invertibility of threshold moving-average models	
AZZALINI, A. and GENTON, M.G.	169
On Gauss's characterization of the normal distribution	
HAEUSLER, E. and SEGERS, J.	175
Assessing confidence intervals for the tail index by Edgeworth expansions for the Hill estimator	
COHEN, S. and ROSIŃSKI, J.	195
Gaussian approximation of multivariate Lévy processes with applications to simulation of tempered stable processes	
ABRAHAM, R. and DELMAS, J.-F.	211
Asymptotics for the small fragments of the fragmentation at nodes	
KLÜPPELBERG, C., KUHN, G. and PENG, L.	229
Estimating the tail dependence function of an elliptical distribution	
HOUDRÉ, C. and KAWAI, R.	252
On layered stable processes	
BANERJEE, M. and McKEAGUE, I.W.	279
Estimating optimal step-function approximations to instantaneous hazard rates
