

# Contents

<b>C. S. WITHERS and S. NADARAJAH</b> The integral of the product of a power and Bessel's $K_\nu$ function .....	461
<b>J. L. BAZÁN, J. S. ROMEO and J. RODRIGUES</b> Bayesian skew-probit regression for binary response data .....	467
<b>E. R. PINTO and A. PONCE DE LEON</b> On Bayesian $D$ -optimal design criteria and the General Equivalence Theorem in joint generalized linear models for the mean and dispersion .....	483
<b>İ. BAYRAMOĞLU and G. GINER</b> Order statistics and exceedances for some models of INID random variables .....	492
<b>M. KELBERT, YU. SUHOV and A. YAMBARTSEV</b> A Mermin–Wagner theorem on Lorentzian triangulations with quantum spins .....	515
<b>M. CSÖRGŐ and Z. HU</b> Change in the mean in the domain of attraction of the normal law via Darling–Erdős theorems .....	538
<b>V. WARRIYAR K. V. and B. C. SUTRADHAR</b> Estimation with improved efficiency in semi-parametric linear longitudinal models .....	561
<b>P. HO DANG</b> Domains of operator semi-attraction of probability measures on Banach spaces .....	587
