# Springer L<sup>A</sup>T<sub>E</sub>X and plain-T<sub>E</sub>X macros

We can use your T<sub>E</sub>X files directly for phototypesetting if you have used our macros. Makropackages are available for the following journals:

**L<sub>Jour1</sub>** L<sup>A</sup>T<sub>E</sub>X styles for Acta Informatica, Applicable Algebra in Engineering, Communication and Computing, Archive for Mathematical Logic, Astronomy & Astrophysics Reviews, Calculus of Variations, Communications in Mathematical Physics, Continuum Mechanics and Thermodynamics, Economic Theory, Inventiones mathematicae, Journal of Evolutionary Economics, Journal of Mathematical Biology, Manuscripta mathematica, Mathematische Annalen, Mathematische Semesterberichte, Mathematische Zeitschrift, Numerische Mathematik, Probability Theory and Related Fields, Statistical papers, Theoretica Chimica Acta

**P<sub>Jour1g</sub>** global plain T<sub>E</sub>X packages for all journals mentioned above; **P<sub>Jour 1</sub>** may also still be used. All packages are available via mailserver, FTP server or on DOS diskettes.

## Mailserver

Send an e-mail message to [svserv@vax.ntp.springer.de](mailto:svserv@vax.ntp.springer.de) which must contain one (several) of the following commands:

**L<sub>Jour1</sub>** `get /tex/latex/ljour1.zip`

**P<sub>Jour1g</sub>** `get /tex/plain/pjour1g.zip`

In order to be transmitted ungarbled via the net, the files are pkzipped and uuencoded. The line `get /tex/help-tex.txt` in your e-mail to `svserv` will send you a file explaining how to unpack the files you receive.

Please do not send regular e-mail to this address.

## FTP server

The internet address is 192.129.24.12 ([trick.ntp.springer.de](http://trick.ntp.springer.de)) The username is FTP or ANONYMOUS and the files are in the directory `/pub/tex`

## Diskettes

To get the macro files and the AMS fonts (when needed) on 3.5" DOS diskettes please write to:

Springer-Verlag, Journal Production,  
Tiergartenstr. 17  
D-69121 Heidelberg, Germany  
e-mail: [springer@vax.ntp.springer.de](mailto:springer@vax.ntp.springer.de)  
FAX number: x 49 6221 487625

Please indicate clearly which macro package you need and the journal for which your paper is intended.

**Use our L<sup>A</sup>T<sub>E</sub>X and plain-T<sub>E</sub>X macros to prepare your article for this and for other Springer journals.**

# World-Wide Document Delivery for Springer-Verlag Journals by CISTI

Springer-Verlag New York and the Canada Institute for Scientific and Technical Information (CISTI) are proud to announce their cooperation to provide a world-wide document delivery service for all Springer-Verlag journals.

Full-text copies of virtually any article or conference report published in the English language will be available. Delivery options include first class mail, fax or overnight courier, and all documents are *copyright cleared*.

Together, Springer-Verlag and CISTI are responsive to librarians' and researchers' needs. From the early 1970s, CISTI—the largest repository for science and engineering materials in North America—has pioneered information technology applications to provide scientific and technical information services directly to researchers and through librarians or information brokers. CISTI offers a broad range of quality services, such as rush requests, payment options, and volume discounts.

CISTI is *the only comprehensive source* for all Springer-Verlag journals. Subject areas include the physical sciences, engineering, biology and medicine. Place your order for a *copyright cleared* Springer-Verlag document by e-mail, fax, or phone.
