

*This volume of *Functiones et Approximatio Commentarii Mathematici*, that consists of two issues, is dedicated to the memory of our dear friend Paweł Domański who passed away in August 2016 in age of fifty-seven after suffering serious illness. For a long time Paweł was editor of this journal. He was not only a very strong and enthusiastic mathematician, excellent lecturer but also an outstanding personality. As editors of this special volume we want to thank all the authors, many of them personal friends of Paweł, for their contributions.*

*Jose Bonet, Michael Langenbruch and Leszek Skrzypczak*
