TABLE OF CONTENTS

VOLUME 16, 1986

EBIHARA, Y. and T. P. SCHONBEK: On the (non)compactness of the radial Sobolev spaces 665
FIFE, P. C.: See MIMURA, M. 189
FUJIKOSHI, Y. and R. NISHII: Selection of variables in a multivariate inverse regression problem 269
GIGA, Y.: On elliptic equations related to self-similar solutions for nonlinear heat equations 539
HASHIMOTO, K., G. NAKAMURA and S. OHARU: Riesz's lemma and orthogonality in normed spaces 279
HEMMI, Y.: Corrections to the papers on finite H-spaces 225
HONDA, M.: Classes of generalized soluble Lie algebras 367
IKEDA, H.: On the asymptotic solutions for a weakly coupled elliptic boundary value problem with a small parameter 227
ISHITANI, H.: A central limit theorem of mixed type for a class of 1-dimensional transformations 161
ITOH, S.: On normality of ASL domains 607
IWAKAMI, T. and D. KIJIMA: Spaces of orderings and quadratic extensions of fields 21
IWAMIYA, T.: Global existence of mild solutions to semilinear differential equations in Banach spaces 499
JAROŠ, J.: Oscillation criteria for functional differential inequalities with strongly bounded forcing term 639
KAJIKIYA, R.: On the asymptotic behavior of solutions of certain semilinear parabolic equations in $\mathbf{R}^N$ 85
KAWAMOTO, N.: Generalizations of Witt algebras over a field of characteristic zero 417
KIJIMA, D.: See IWAKAMI, T. 21
KOBAYASI, K.: Asymptotic behavior of periodic nonexpansive evolution operators in uniformly convex Banach spaces 531
KOIKE, S.: On the regularity of solutions of a degenerate parabolic Bellman equation 251
KONNO, N.: A limit theorem for collision path of one-dimensional independent random motions 135
KUSANO, T., M. NAITO and H. USAMI: Asymptotic behavior of solutions of a class of second order nonlinear differential equations 149

KUSANO, T. and M. NAITO: Positive entire solutions of superlinear elliptic equations 361
KUSANO, T. and W. F. TRENCH: Global existence of solutions of mixed sublinear-superlinear differential equations 597
MAEDA, F.-Y.: Semilinear boundary value problems on a self-adjoint harmonic space with non-local boundary conditions 101
MARUŠIAK, P.: Oscillation theorems for nonlinear differential systems with general deviating arguments 651
MIMURA, M. and K. OHARA: Standing wave solutions for a Fisher type equation with a nonlocal convection 33
MIMURA, M. and P. C. FIFE: A 3-component system of competition and diffusion 189
MIMURA, M., Y. YAMADA and S. YOTSUTANI: Stability analysis for free boundary problems in ecology 477
MISHEV, D. P.: Oscillatory properties of the solutions of hyperbolic differential equations with "maximum" 77
MIZUTA, Y.: On the existence of limits along lines of Beppo Levi functions 387
NAITO, M.: See KUSANO, T. 149
NAITO, M.: See KUSANO, T. 361
NAKAMURA, G.: See HASHIMOTO, K. 279
NISHII, R.: See FUJIKOSHI, Y. 269
NISHINO, T.: Sur les points singuliers d'une courbe analytique 631
ODA, S. and K. YOSHIDA: When does LCM-stability ensure flatness at primes of depth one? 613
OH, H.-S.: See WAKAKI, H. 625
OHARA, K.: See MIMURA, M. 33
OHARU, S.: See HASHIMOTO, K. 279
OHTSUKA, K.: Generalized J-integral and three-dimensional fracture mechanics II —Surface crack problems— 327
ONOSE, H.: Nonoscillation of nonlinear first order differential equations with forcing term 617
SAKAMOTO, T.: Lie algebras satisfying the weak minimal condition on ideals 51
SAWASHITA, N. and M. SUGAWARA: On self H-equivalences of an H-space with respect to any multiplication 1
SCHONBEK, T. P.: See EBIHARA, Y. 665
SHIMOMURA, K. and H. TAMURA: Non-triviality of some compositions of β-elements in the stable homotopy of the Moore spaces 121
SHIMOMURA, K.: On the Adams-Novikov spectral sequence and products of β-elements 209

SHINTANI, H.: Componentwise error estimates for approximate solutions to systems of equations with the aid of Dahlquist constants 553
SUGAWARA, M.: See SAWASHITA, N. 1
SUZUKI, N.: On real continuous kernels satisfying the semi-complete maximum principle 573
TADA, T.: The Martin boundary of the half disk with rotation free densities 315
TAMURA, H.: See SHIMOMURA, K. 121
TÔGÔ, S.: Serially finite Lie algebras 443
TRENCH, W. F.: See KUSANO, T. 597
UDA, H.: A characterization of Prüfer v-multiplication domains in terms of polynomial grade 115
USAMI, H.: See KUSANO, T. 149
WAKAKI, H. and H.-S. OH: Asymptotic expansion for the distribution of the discriminant function in the first order autoregressive processes 625
WAKIMOTO, M.: A certain series of unitarizable representations of Lie super-algebras $\mathfrak{gl}(p/q)$ 405
WAKIMOTO, M.: Irreducible decompositions of spinor representations of the Virasoro algebra 413
WAKIMOTO, M. and H. YAMADA: The Fock representations of the Virasoro algebra and the Hirota equations of the modified KP hierarchies 427
YAGUCHI, H.: Stationary measures for an exclusion process on one-dimensional lattices with infinitely many hopping sites 449
YAMADA, H.: See WAKIMOTO, M. 427
YAMADA, Y.: See MIMURA, M. 477
YAMASAKI, M.: Ideal boundary limit of discrete Dirichlet functions 353
YOSHIDA, K.: See ODA, S. 613
YOSHIDA, N.: Oscillation of nonlinear parabolic equations with functional arguments 305
YOTSUTANI, S.: See MIMURA, M. 477
