TABLE OF CONTENTS

VOLUME 41, 2011

AKITA, T.: Estimation on inverse regression using principal components of covariance matrix of sliced data	41
CHIJIWA, T.: A quantitative result on Sendov's conjecture for a zero near the unit circle	235
CHU, W. and ZHANG, W.: Four classes of Rogers–Ramanujan identities with quintuple products	27
DUAN, H., FAN, J. and ZHOU, Y.: Regularity criteria for the rational large eddy simulation model	167
HISHIKAWA, Y. and YAMADA, M.: Function spaces of parabolic Bloch type	55
HO, K.-P.: Characterizations of BMO by A_p weights and p -convexity	153
HOSHI, Y. and MOCHIZUKI, S.: On the combinatorial anabelian geometry of nodally nondegenerate outer representations	275
JANG, Y.: Classification of 3-bridge arborescent links	89
KITAHAMA, R. and SHIMOMURA, K.: On the chromatic $\text{Ext}^0(M_{n-1}^1)$ on $\Gamma(m+1)$ for an odd prime	211
KONNO, T.: Infinitesimal isometries on tangent sphere bundles over three-dimensional manifolds	343
KUROIWA, H.: A family of entire functions which determines the splitting behavior of polynomials at primes	409
KUSANO, T. and MARIĆ, V.: Regularly varying solutions of second order nonlinear functional differential equations with retarded argument	137
MONDEN, N.: The mapping class group of a punctured surface is generated by three elements	1
NAKAI, M.: An application of capacity functions to an inverse inclusion problem	223
NAKANISHI, T.: A series associated to generating pairs of a once punctured torus group and a proof of McShane's identity	11
RAUDIN, Y.: On a generalized Stokes system with slip boundary conditions in the half-space	179
TAKASAO, K.: Stability of travelling wave solutions for the Landau-Lifshitz equation	367
ZHANG, Q.: A weighted weak type estimate for the fractional integral operator on spaces of homogeneous type	389
