

JOURNAL OF SCIENCE
OF THE
HIROSHIMA UNIVERSITY
SERIES A
(MATHEMATICS, PHYSICS, CHEMISTRY)

Volume 15

1951-1952

Published by the
HIROSHIMA UNIVERSITY
HIROSHIMA, JAPAN

TABLE OF CONTENTS

VOLUME 15, 1951-1952

Mathematics

	Page
MAEDA, F. :— Lattice Theoretic Characterization of Abstract Geometries	87
MAEDA, F. :— Direct and Subdirect Factorizations of Lattices	97
MAEDA, F. :— Matroid Lattices of Infinite Length	177
MORI, S. :— Über die Symmetrie des Prädikates „Relativ Prim“ II	79
MORINAGA, K. and NONONO, T. :— On the Automorphisms of the Set of Simple Vectors	11
NAKANO, N. :— Über den Fundamentalsatz der Idealtheorie in unendlichen alge- braischen Zahlkörpern	171
OGASAWARA, T. and FUNAKOSHI, J. :— On Topological Operations Deter- mined by Local Characters	103
OGASAWARA, T. and TAKAHASHI, M. :— Independence of Quadratic Quanti- ties in a Normal System	1
SASAKI, U. and FUJIWARA, S. :— The Decomposition of Matroid Lattices	183
SASAKI, U. and FUJIWARA, S. :— The Characterization of Partition Lattices	189
URABE, M. :— On Solutions of the Linear Homogeneous Partial Differential Equa- tion in the Vicinity of the Singularity. III	25
URABE, M. :— On Integrals of the Certain Ordinary Differential Equations in the Vicinity of the Singularity. II	39
URABE, M. :— Equations of Schröder	113
URABE, M. :— Equations of Schröder (Continued)	203

Physics

IRIE, T. :— Anisotropic Property of Single Crystal Plate of Aluminum. Part 7. Growing Velocity and the Temperature of Growing Head of the Single Crystal	45
IRIE, T. and FUJIWARA, T. :— Anisotropy of the Growing Velocity of Single Crystal in Rolled Aluminium Plate. Part 1	47
KUSHIDA, T. and INOUE, N. :— On the Rectification of Cuprous Sulphide	71
MUKAI, T. :— A Method of Producing a Long Thick Single Crystal Plate of Alu- minium with any Desired Crystallographic Axis	147
MUKAI, T. :— Anisotropic Properties of Single Crystal of Aluminium	269
OGURA, I. :— Etching Cavities and Figures on Single Crystals of Magnesium	51
TAKEYAMA, H., NISIMOTO, K. and MATUBAYASI, T. :— On the Light In- tensities of Small-type Spectral Lamps (Part II). On the Influences of Ex- ternal Circuits and Weak Magnetic Field	57
