

	Page
Irving Reiner 1924–1986	
By GERALD J. JANUSZ . . . . .	315
Torsion free cancellation over orders	
By RICHARD G. SWAN . . . . .	329
Minimal free resolutions of lattices over finite groups	
By K. W. GRUENBERG and P. A. LINNELL . . . . .	361
A Mayer-Vietoris sequence for Picard groups, with applications to integral group rings of dihedral and quaternion groups	
By WILLIAM H. GUSTAFSON and KLAUS W. ROGGENKAMP . . . . .	375
Module defect and factorisability	
By A. FRÖHLICH . . . . .	407
Class number restrictions for certain $l$ -extensions of imaginary quadratic fields	
By STEPHEN V. ULLOM and STEPHEN B. WATT . . . . .	422
Mordell-Weil groups and the Galois module structure of rings of integers	
By M. J. TAYLOR . . . . .	428
The class group of an absolutely Abelian $l$ -extension	
By GARY CORNELL and MICHAEL ROSEN . . . . .	453
Swan modules and elliptic functions	
By ANUPAM SRIVASTAV . . . . .	462
An inequality in integral representation theory	
By G. J. JANUSZ . . . . .	484
Moody's induction theorem	
By GERALD CLIFF and ALFRED WEISS . . . . .	489
On permutation representations	
By ALEX HELLER . . . . .	501
A theorem on modular endomorphism rings	
By J. A. GREEN . . . . .	510
On the global dimension of algebras over regular local rings	
By J. A. DE LA PEÑA and A. RAGGI-CÁRDENAS . . . . .	520
Trace quotient modules	
By MAURICE AUSLANDER and E. L. GREEN . . . . .	534
Wild categories of periodic modules	
By JON F. CARLSON and ALFREDO JONES . . . . .	557
Minimal asymptotic bases with prescribed densities	
By PAUL ERDÖS and MELVYN B. NATHANSON . . . . .	562
On the number of solutions of $x^{p^k} = a$ in a $p$ -group	
By T. Y. LAM . . . . .	575
An asymptotic result for subgroups of $SL(2, Z)$ of level 2	
By MORRIS NEWMAN . . . . .	584
The following paper was accepted for publication in this issue but will appear in the next issue, volume 32, number 4.	
Presentations of modules when ideals need not be principal	
By ROBERT M. GURALNICK and LAWRENCE S. LEVY . . . . .	593
