

	Page
On extreme infinite doubly stochastic matrices By RYSZARD GRZAŚLEWICZ	529
Arens semi-regularity of the algebra of compact operators By MICHAEL GROSSER	544
The loop space of the Q -construction By HENRI GILLET AND DANIEL R. GRAYSON	574
Exact sequences in algebraic K -theory By DANIEL R. GRAYSON	598
Small solutions of congruences over algebraic number fields By TODD COCHRANE	618
Finite abelian groups that can act freely on $(S^{2n})^k$ By LARRY W. CUSICK	626
A Beurling-Rudin Theorem for H^∞ By PAMELA GORKIN, HAKAN HEDENMALM AND RAYMOND MORTINI	629
A generalization of Halász's theorem to Beurling's generalized integers and its application By WEN-BIN ZHANG	645
Remarks on the existence and uniqueness of unbounded viscosity solutions of Hamilton-Jacobi equations By MICHAEL G. CRANDALL AND PIERRE-LOUIS LIONS	665
Connected subgroups of Lie groups By E. S. THOMAS	689
Spectrum of domains in Riemannian manifolds By HAROLD DONNELLY	692
Conjugate functions and moduli of continuity By C. A. NOLDER	699
