

ILLINOIS JOURNAL OF MATHEMATICS

Volume 53, Number 2

SUMMER 2009

K. Wildrick and T. Zürcher , Peano cubes with derivatives in a Lorentz space	365
Alastair Fletcher, Jim Langley and Janis Meyer , Nonvanishing derivatives and the MacLane class \mathcal{A}	379
Betsy Stovall , Quasi-extremals for convolution with surface measure on the sphere.....	391
Naoki Terai and Ken-ichi Yoshida , Locally complete intersection Stanley–Reisner ideals.....	413
Francesco Mercuri and Irene I. Onnis , On the Björling problem in a three-dimensional Lie group.....	431
Xiaochun Fang and Yile Zhao , The extensions of C^* -algebras with tracial topological rank no more than one.....	441
Ying Hu , Noncommutative extrapolation theorems and applications.....	463
Claire Wladis , Unusual geodesics in generalizations of Thompson’s group F ...	483
Igor Chyzhykov , Argument of bounded analytic functions and Frostman’s type conditions.....	515
Jorge Rivera-Noriega , A parabolic version of Corona decompositions.....	533
M. Castrillón López, P. M. Gadea and A. F. Swann , Homogeneous structures on real and complex hyperbolic spaces.....	561
Ruidong Wang , Isometries between normed spaces which are surjective on a sphere.....	575
A. Arvanitoyeorgos, G. Kaimakamis and M. Magid , Lorentz hypersurfaces in E_1^4 satisfying $\Delta\vec{H} = \alpha\vec{H}$	581
Toshiaki Maeno and Junzo Watanabe , Lefschetz elements of Artinian Gorenstein algebras and Hessians of homogeneous polynomials.....	591
Daniel A. Nicks , Real meromorphic functions and a result of Hinkkanen and Rossi.....	605
Lech Drewnowski and Iwo Labuda , Solid sequence F -spaces of L_0 -type over submeasures on \mathbb{N}	623
Nihat Gogus and Evgeny A. Poletsky , Jensen measures and annihilators of holomorphic functions.....	679
Daniel Meyer , Dimension of elliptic harmonic measure of snowspheres.....	691
