

# ILLINOIS JOURNAL OF MATHEMATICS

Volume 56, Number 2

Summer 2012

---

<b>Jim Fowler</b> , Finiteness properties for some rational Poincaré duality groups ...	281
<b>Luis Guijarro and Gerard Walschap</b> , The curvature operator at the soul ...	301
<b>William R. Green</b> , Dispersive estimates for matrix and scalar Schrödinger operators in dimension five .....	307
<b>Maurício Corrêa Jr. and Marcos Jardim</b> , Bounds for sectional genera of varieties invariant under Pfaff fields .....	343
<b>Riikka Korte and Valentino Magnani</b> , Measure of curves in graded groups	353
<b>Hua Wang and Heping Liu</b> , The intrinsic square function characterizations of weighted Hardy spaces .....	367
<b>Colleen Robles</b> , Parallel calibrations and minimal submanifolds .....	383
<b>Andrew H. Hoefel and Jeff Mermin</b> , Gotzmann squarefree ideals .....	397
<b>Frédéric Bernicot</b> , Fiber-wise Calderón–Zygmund decomposition and application to a bi-dimensional paraproduct .....	415
<b>Ehud Meir</b> , Every central simple algebra is Brauer equivalent to a Hopf Schur algebra .....	423
<b>Adam Nowak and Krzysztof Stempak</b> , On $L^p$ -contractivity of Laguerre semigroups .....	433
<b>Lin Tang</b> , Weighted local Hardy spaces and their applications .....	453
<b>Congwen Liu and Lifang Zhou</b> , On the $p$ -norm of the Berezin transform ...	497
<b>Yoshihiro Mizuta and Tetsu Shimomura</b> , Exponential integrability of Riesz potentials of Orlicz functions .....	507
<b>Björn G. Walther</b> , Global range estimates for maximal oscillatory integrals with radial test functions .....	521
<b>Viviana Ene and Anda Olteanu</b> , Powers of lexsegment ideals with linear resolution .....	533
<b>Ayyadurai Sankaranarayanan</b> , On the estimation of nonlinear twists of the Liouville function .....	551
<b>S. Dutta, P. Mohanty and U. B. Tewari</b> , Multipliers which are not completely bounded .....	571
<b>Șerban Costea and Michele Miranda Jr.</b> , Newtonian Lorentz metric spaces	579
<b>Chong Zhao and Jiayang Yu</b> , Trace estimation of commutators of multiplication operators on function spaces .....	617
<b>Xu-Jian Huang</b> , Complete geometric unitaries in operator spaces .....	633
<b>Qihui Li and Junhao Shen</b> , A note on unital full amalgamated free products of RFD $C^*$ -algebras .....	647
