

ILLINOIS JOURNAL OF MATHEMATICS

Volume 56, Number 4

Winter 2012

Keith Pardue and Benjamin Richert , Errata for <i>Syzygies of semi-regular sequences</i>	1001
Nikos Dafnis and Grigoris Paouris , Estimates for the affine and dual affine quermassintegrals of convex bodies	1005
Wojciech Jaworski , Contraction groups, ergodicity, and distal properties of automorphisms of compact groups	1023
Sichang Lee , On Chow groups of complete regular local rings	1085
Melvin Hochster and Yongwei Yao , Test exponents for modules with finite phantom projective dimension	1095
Jasun Gong , Rigidity of derivations in the plane and in metric measure spaces	1109
Teresa Bates, David Pask and Paulette Willis , Group actions on labeled graphs and their C^* -algebras	1149
Javier Alejandro Chávez-Domínguez , Completely (q, p) -mixing maps	1169
Alcides Buss and Ruy Exel , Inverse semigroup expansions and their actions on C^* -algebras	1185
François Fillastre and Jean-Marc Schlenker , Flippable tilings of constant curvature surfaces	1213
Taro Asume , On independent rigid classes in $H^*(WU_q)$	1257
A. Barros, R. Batista and E. Ribeiro Jr. , Rigidity of gradient almost Ricci solitons.....	1267
Joshua Zahl , On the Wolff circular maximal function.....	1281
Mihail N. Kolountzakis and Ioannis Parissis , Circle discrepancy for checkerboard measures	1297
Kenneth J. Dykema, Junsheng Fang, Donald W. Hadwin and Roger R. Smith , The carpenter and Schur–Horn problems for masas in finite factors	1313
Henri Anciaux , Minimal Lagrangian submanifolds in indefinite complex space	1331
