

ILLINOIS JOURNAL OF MATHEMATICS

Volume 57, Number 3

Fall 2013

William Alexandre and Emmanuel Mazzilli , Division of holomorphic functions and growth conditions	629
Kazuyuki Enomoto and Jin-ichi Itoh , The total absolute torsion of open curves in E^3	665
Libing Huang and Xiaohuan Mo , On conformal fields of a Randers metric with isotropic S -curvature	685
L. Hauswirth, M. Kilian and M. U. Schmidt , Finite type minimal annuli in $S^2 \times \mathbb{R}$	697
Seth Aaronson and Nicholas A. Scoville , Lusternik–Schnirelmann category for simplicial complexes	743
M. Filali, M. Sangani Monfared and Ajit Iqbal Singh , Involutions and trivolutions in algebras related to second duals of group algebras	755
Vjekoslav Kovač and Christoph Thiele , A $T(1)$ theorem for entangled multilinear dyadic Calderón–Zygmund operators	775
Athipat Thamrongthanyalak , Definable smoothing of continuous functions ..	801
Atsushi Ishii, Masahide Iwakiri, Yeonhee Jang and Kanako Oshiro , A G -family of quandles and handlebody-knots	817
Waldemar D. Bastos, Olimpio H. Miyagaki and Rônei S. Vieira , Solution to biharmonic equation with vanishing potential	839
Guixiang Hong , The behavior of the bounds of matrix-valued maximal inequality in \mathbb{R}^n for large n	855
S. A. Seyed Fakhari , Stanley depth of weakly polymatroidal ideals and squarefree monomial ideals	871
Neil O’Connell , Geometric RSK and the Toda lattice	883
