

Illinois Journal of Mathematics

Volume 63 | Number 1 | June 2019

- 1 **Explicit versions of the local duality theorem in \mathbb{C}^n**
Richard Lärkäng
- 47 **Extreme points and saturated polynomials**
Greg Knese
- 75 **Exponential mixing for SPDEs driven by highly degenerate Lévy noises**
Xiaobin Sun, Yingchao Xie, and Lihu Xu
- 103 **A cancellation theorem for generalized Swan modules**
F. E. A. Johnson
- 127 **Intersection homology: General perversities and topological invariance**
David Chataur, Martintxo Saralegi-Aranguren, and Daniel Tanré
- 165 **On semidualizing modules of ladder determinantal rings**
Sean Sather-Wagstaff, Tony Se, and Sandra Spiroff
