

Illinois Journal of Mathematics

Volume 64 | Number 4 | December 2020

- 467 **Almost everywhere convergence of prolate spheroidal series**
Philippe Jaming and Michael Speckbacher
- 481 **Lens spaces which are realizable as closures of homology cobordisms over planar surfaces**
Nozomu Sekino
- 493 **Parabolic SL_r -opers**
Indranil Biswas, Sorin Dumitrescu, and Christian Pauly
- 519 **Certain $*$ -homomorphisms of C^* -algebras and sequences of semicircular elements: A Banach space view**
Ilwoo Cho and Palle E. T. Jorgensen
- 569 **Zeros of Gaussian power series with dependent random variables**
Safari Mukeru, Mmboniseni P. Mulaudzi, Joseph Nzabanita, and Marc M. Mpanda
- 583 **The metric theory of the pair correlation function of real-valued lacunary sequences**
Zeév Rudnick and Niclas Technau
- 595 **On derived functors of graded local cohomology modules—II**
Tony J. Puthenpurakal, Sudeshna Roy, and Jyoti Singh
- 613 **Modulated (C, α) -ergodic theorems with non-integral orders for Dunford–Schwartz operators**
Takeshi Yoshimoto
- 645 **Corrigendum to “On the homogeneous ergodic bilinear averages with Möbius and Liouville weights” by E. H. el Abdalaoui**
