

International Statistical

REVIEW

Revue Internationale de Statistique

Volume 73 Number 3 December 2005

Contents	<i>Page</i>
Cohen, M.P.: Sample size considerations for multilevel surveys	279
Aldrich, J.: The statistical education of Harold Jeffreys	289
Gutiérrez-Peña, E. and Walker, S.G.: Statistical decision problems and Bayesian nonparametric methods	309
Keller-McNulty, S., Nakhleh, C.W. and Singpurwalla, N.D.: A paradigm for masking (camouflaging) information	331
Blume, J.D.: How to choose a working model for measuring the statistical evidence about a regression parameter	351
Le Roux, N.J. and Gardner, S.: Analysing your multivariate data as a pictorial: a case for applying biplot methodology?	365
Carfagna, E. and Gallego, F.J.: Using remote sensing for agricultural statistics	389
Kovács, P., Petres, T. and Tóth, L.: A new measure of multicollinearity in linear regression models	405
Annual index 73/2005	413
Acknowledgement of refereeing work	417
