

INDEX for Volume 104

M. Banagl, <i>Foliated stratified spaces and a De Rham complex describing intersection space cohomology</i>	1
J. Berndt and C. Olmos, <i>Maximal totally geodesic submanifolds and index of symmetric spaces</i>	187
J. Bowden, <i>Contact perturbations of Reebless foliations are universally tight</i>	219
B.-Y. Chen & S. Fu, <i>Stability of the Bergman kernel on a tower of coverings</i>	371
M. Chen & C. Jiang, <i>On the anti-canonical geometry of \mathbb{Q}-Fano threefolds</i>	59
O. Chodosh & D. Maximo, <i>On the topology and index of minimal surfaces</i>	399
C.-Y. Chi, <i>Pseudonorms and theorems of Torelli type</i>	239
H. Duan, Y. Long, & W. Wang, <i>Two closed geodesics on compact simply connected bumpy Finsler manifolds</i>	275
P. Gianniotis, <i>The Ricci flow on manifolds with boundary</i>	291
G. Heier, S.S.Y. Lu, & B. Wong, <i>Kähler manifolds of semi-negative holomorphic sectional curvature</i>	419
S. Hosono & H. Takagi, <i>Double quintic symmetroids, Reye congruences, and their derived equivalence</i>	443
A. Huang, B. H. Lian, & X. Zhu, <i>Period integrals & Riemann–Hilbert correspondence</i>	325
A. Isaev, <i>Affine rigidity of Levi degenerate tube hypersurfaces</i> ...	111
W.-P. Li & Z. Qin, <i>The cohomological crepant resolution conjecture for the Hilbert–Chow morphisms</i>	499
A. Mondino & T. Rivière, <i>A frame energy for immersed tori and applications to regular homotopy classes</i>	143
