

JOURNAL OF INTEGRAL
EQUATIONS AND APPLICATIONS

Volume 26

FALL 2014

Number 3

CONTENTS

On the problems of peridynamics with special convolution kernels By S.A. ALIMOV, YANZHAO CAO AND O.A. ILHAN	301
Asymptotically typed solutions to a semilinear integral equation By YONG-KUI CHANG, XIAO-XIA LUO AND G.M. N'GUÉRÉKATA	323
Order of approximation for sampling Kantorovich operators By DANILO COSTARELLI AND GIANLUCA VINTI	345
Convolution spline approximations for time domain boundary integral equations By PENNY J. DAVIES AND DUGALD B DUNCAN.....	369
For nonlinear infinite dimensional equations, which to begin with: Linearization or discretization? By LAURENCE GRAMMONT, MARIO AHUES AND FILOMENA D. D'ALMEIDA	415
