

CONTENTS

Necessary Fredholm conditions for weighted singular integral operators with shifts and slowly oscillating data
By ALEXEI YU. KARLOVICH, YURI I. KARLOVICH
AND AMARINO B. LEBRE 365

Central part interpolation schemes for integral equations with singularities
By KERLI ORAV-PUURAND, ARVET PEDAS AND
GENNADI VAINIKKO 401

Well-conditioned boundary integral equation formulations and Nyström discretizations for the solution of Helmholtz problems with impedance boundary conditions in two-dimensional Lipschitz domains
By CATALIN TURC, YASSINE BOUBENDIR AND
MOHAMED KAMEL RIAHI 441
