

# JOURNAL OF INTEGRAL EQUATIONS AND APPLICATIONS

Volume 32

2020

Number 4

---

Regularization of a terminal value nonlinear diffusion equation with conformable time derivative VO VAN AU, YONG ZHOU, NGUYEN HUU CAN AND NGUYEN HUY TUAN .....	397
Integral equations of the third kind in $L^p$ spaces TERESA DIOGO, ARVET PEDAS AND GENNADI VAINIKKO .....	417
On the solutions of linear Volterra equations of the second kind with sum kernels PIERRE-LOUIS GISCARD .....	429
A fractional multiterm Gronwall lemma and its application to the stability of fractional integrodifferential systems DARIUSZ IDCZAK .....	447
On the existence, uniqueness and stability results for time-fractional parabolic integrodifferential equations SHANTIRAM MAHATA AND RAJEN KUMAR SINHA .....	457
A subordination principle for subdiffusion equations with memory RODRIGO PONCE .....	479
Asymptotic expansion of iterated Galerkin solution of Fredholm integral equations of the second kind with Green's kernel GOBINDA RAKSHIT AND AKSHAY S. RANE .....	495
Author index for Volume 32 .....	509
