

CONTENTS

Y. SHEN , Teichmüller spaces for pointed Fuchsian groups and their modular groups	301
G. HU, Da. YANG and Do. YANG , Boundedness of maximal singular integral operators on spaces of homogeneous type and its applications	323
J. O. BUTTON , Mapping tori with first Betti number at least two	351
H.-Z. LI and J. WU , The universality of symmetric power L -functions and their Rankin-Selberg L -functions	371
H. ZOU , Existence and non-existence for strongly coupled quasi-linear cooperative elliptic systems	393
S. WANG and S. S.-T. YAU , The diffeomorphic types of the complements of arrangements in CP^3 I: Point arrangements	423
M. NAKAI , Local representability as Dirichlet solutions	449
Y. SHIBATA and R. SHIMADA , On a generalized resolvent estimate for the Stokes system with Robin boundary condition	469
P. MALICKI and A. SKOWROŃSKI , Concealed generalized canonical algebras and standard stable tubes	521
S. YAMAGAMI , Notes on operator categories	541
Y. ANDO , The homotopy principle for maps with singularities of given \mathcal{H} -invariant class	557
S. STEVIĆ , Area type inequalities and integral means of harmonic functions on the unit ball	583
