

**VOL. 60 NO. 1**

**JANUARY, 2008**

**CONTENTS**

<b>M. DE CRISENOY and D. ESSOUABRI</b> , Relations between values at $T$ -tuples of negative integers of twisted multivariable zeta series associated to polynomials of several variables.....	1
<b>M. KEMP</b> , Geometric Seifert 4-manifolds with hyperbolic bases .....	17
<b>C. VÎLCU</b> , Common maxima of distance functions on orientable Alexandrov surfaces .....	51
<b>A. KOWATA and M. MORIWAKI</b> , Fourier-Borel transformation on the hypersurface of any reduced polynomial .....	65
<b>Y. SHIOZAWA</b> , Exponential growth of the numbers of particles for branching symmetric $\alpha$ -stable processes .....	75
<b>M. TAKAMURA</b> , The relative cohomology of formal contact vector fields with respect to formal Poisson vector fields .....	117
<b>K. KIKUCHI</b> , Linear approximation for equations of motion of vibrating membrane with one parameter .....	127
<b>M. Á. BARJA and L. STOPPINO</b> , Linear stability of projected canonical curves with applications to the slope of fibred surfaces .....	171
<b>W. KUBIŚ and K. SAKAI</b> , Hausdorff hyperspaces of $\mathbf{R}^m$ and their dense subspaces ...	193
<b>M. HASHIMOTO, S. KANEMITSU and M. TODA</b> , On Gauss' formula for $\psi$ and finite expressions for the $L$ -series at 1 .....	219
<b>M. YOSHINO and A. SHIRAI</b> , Singular solutions of nonlinear partial differential equations with resonances .....	237
<b>Y.-J. HONG</b> , Stability and existence of critical Kaehler metrics on ruled manifolds....	265
<b>M. UCHIYAMA</b> , A new majorization between functions, polynomials, and operator inequalities II .....	291
