

## CONTENTS

|  |     |
|--|-----|
| <b>Kensaku GOMI</b> , Sylow 2-intersections, 2-fusion, and 2-factorizations in finite groups of characteristic 2 type .....      | 571 |
| <b>Shoyu NAGAOKA</b> , On the ring of Hilbert modular forms over $Z$ .....   | 589 |
| <b>Masanao OZAWA</b> , Boolean valued interpretation of Hilbert space theory .....   | 609 |
| <b>Itaru MITOMA</b> , On the sample continuity of $J'$ -processes .....  | 629 |
| <b>Yoshitaka MAEDA</b> , A remark on the values of the zeta functions associated with cusp forms .....                           | 637 |
| <b>Hiroshi YANAGIHARA</b> , Some results on weakly normal ring extensions .....  | 649 |
| <b>Hirotaka FUJIMOTO</b> , Value distribution of the Gauss maps of complete minimal surfaces in $R^m$ .....                      | 663 |
| <b>Tsuyoshi WATABE</b> , Semi-simple degree of symmetry and maps of degree one into a product of 2-spheres .....                 | 683 |
| <b>Yasutaka IHARA</b> , How many primes decompose completely in an infinite unramified Galois extension of a global field? ..... | 693 |
| <b>Minoru MURATA</b> , High energy resolvent estimates, I, first order operators .....   | 711 |
