

## CONTENTS

|  |     |
|--|-----|
| <b>Ryotaro SATO</b> , Ergodic theorems for semigroups of positive operators .....  | 591 |
| <b>Minoru MATSUDA</b> , Barycenters and extreme points .....   | 607 |
| <b>A. HARAUX</b> , How to differentiate the projection on a convex set in Hilbert space. Some applications to variational inequalities ..... | 615 |
| <b>Tsuyoshi YUKAMI</b> , Transnite type theory and provability of second order formulas ...  | 633 |
| <b>Tadashi WATANABE</b> , On Čech homology and a stability theorem in shape theory .....   | 655 |
| <b>Hitoshi KITADA</b> , Scattering theory for Schrödinger operators with long-range potentials, I, abstract theory .....                     | 665 |
| <b>Zyozyu OHMORI</b> , On the Schur indices of $GL(n, q)$ and $SL(2n + 1, q)$ .....  | 693 |
| <b>Tsutomu SEKIGUCHI</b> , On projective normality of abelian varieties II .....   | 709 |
| <b>Kenji YAJIMA</b> , Scattering theory for Schrödinger equations with potentials periodic in time .....                                     | 729 |
| <b>Masazumi HANAZAWA</b> , A second order theory of ordinal numbers with Ackermann-type recursion schema .....                               | 745 |
| <b>Jacob BURBEA</b> , The curvatures of the analytic capacity .....  | 755 |
| <b>Jun-ichi TANAKA</b> , Real parts of Banach function algebras .....  | 763 |
| <b>Takashi INABA</b> , On stability of proper leaves of codimension one foliations .....   | 771 |
| <b>Mitsuru NAKAI</b> , Malformed subregions of Riemann surfaces .....  | 779 |
| <b>J. MORROW and H. ROSSI</b> , Correction to: "Some theorems of algebraicity for complex spaces" .....                                      | 783 |
