

CONTENTS

Toyohiro AKAMATSU , On a parametrix in some weak sense of a first order linear partial differential operator with two independent variables	1
Abdul MAJEED , Freeness of the group $\langle a^n, b^n \rangle$ for some integer n , $a, b \in SL(2, C)$	29
Tohru MORIMOTO , On the intransitive Lie algebras whose transitive parts are infinite and primitive	35
Takao MATUMOTO , On the signature invariants of a non-singular complex sesqui-linear form	67
Shinzo KAWAMURA and Jun TOMIYAMA , On subdiagonal algebras associated with flows in operator algebras	73
Kisao TAKEUCHI , Arithmetic triangle groups	91
Mitsuru NAKAI and Shigeo SEGAWA , Harmonic dimensions related to Dirichlet integrals	107
Fumio HIAI and Ryotaro SATO , Mean ergodic theorems for semigroups of positive linear operators	123
Yusuke SAKANE , On compact complex analytic manifolds	135
Yoichi OSHIMA , On a construction of a recurrent potential kernel by means of time change and killing	151
Morikuni GOTO , On an integer associated with an algebraic group	161
Takuro SHINTANI , On irreducible unitary characters of a certain group extension of $GL(2, C)$	165
