

## CONTENTS

<b>Toshio OSHIMA</b> , On the global existence of solutions of systems of linear differential equations with constant coefficients .....	575
<b>Koji SHIGA</b> , Cohomology of Lie algebras over a manifold, II .....	587
<b>Atsushi INOUE</b> , Wave and scattering operators for an evolving system $\frac{d}{dt} - iA(t)$ .....	608
<b>Seiki NISHIKAWA</b> , Compact two-transnormal hypersurfaces in a space of constant curvature*) .....	625
<b>Yukihiro KODAMA</b> , On the shape of decomposition spaces .....	636
<b>Eiji HORIKAWA</b> , On deformations of holomorphic maps II .....	647
<b>Shinju KOBAYASHI</b> , On the l-class rank in some algebraic number fields .....	668
<b>Par Georges GRAS</b> , Sur les l-classes d'idèles des extensions non galoisiennes de $\mathbb{Q}$ de degré premier impair $l$ à clôture galoisienne d'ordre $2 - l$ .....	677
<b>Yosio MUTO</b> , Curvature and critical Riemannian metric .....	686
<b>Shizuo ENDO and Takehiko MIYATA</b> , Quasi-permutation modules over finite groups, II .....	698
<b>Koichi SAKAMOTO</b> , The Seifert matrices of Milnor manifolds defined by holomorphic functions .....	714
<b>T. T. MOH</b> , On the unboundedness of generators of prime ideals in powerseries rings of three variables .....	722
<b>Kenichi IYANAGA</b> , Cusps of certain symmetric bounded domains .....	735
