## VOL. 22 NO. 1

## $\mathbf{JANUARY},\,\mathbf{1970}$

## CONTENTS

| Isao HAYASHI, Embedding and Existence theorems of innite Lie algebra  | 1   |
|---|-----|
| <b>Motoo TAKAHASHI,</b> A theorem on the second-order arithmetic with the $\omega$ -rule                          | 15  |
| Samuel I. GOLDBERG and Kentaro YANO, Noninvariant hypersurfaces of almost contact manifolds                       | 25  |
| Tominosuke OTSUKI, On principal normal vector elds of submanifolds in a Riemannian manifold of constant curvature | 35  |
| Yasunori OKABE, The resolution of an irregularity of boundary points in the boundary problem for Markov processes | 47  |
| Satoshi ARIMA, Double ruled surfaces and their canonical systems  | 105 |
