

CONTENTS

Minoru KURITA , Theory of Finsler spaces based on the contact structure	119
Tsunekazu KAMBE , The structure of K -rings of the lens space and their applications	135
Hideki OMORI , Some examples of topological groups	147
J. W. NEUBERGER , An exponential formula for one-parameter semi-groups of nonlinear transformations	154
Keio NAGAMI , A normal space Z with $\text{ind } Z = 0$, $\dim Z = 1$, $\text{Ind}Z = 2$	158
Tadashi ISHII , On product spaces and product mappings	166
Megumu MIWA , On Mordell's conjecture for algebraic curves over function elds	182
Takushiro OCHIAI , On the automorphism group of a G -structure	189
Kentaro YANO and Shoshichi KOBAYASHI , Prolongations of tensor elds and connections to tangent bundles I – General theory –	194
Par Kazuko KATO , Sur le thorme de P. Thullen et K. Stein	211
