

## CONTENTS

<b>Toshio NISHIMURA</b> , On Gödel's theorem .....	1
<b>Svetozar KUREPA</b> , A property of a set of positive measure and its application .....	13
<b>Michihiro TAKAHASHI</b> , On the stable cohomology groups of certain Postnikov complexes .....	20
<b>Raymond M. SMULLYAN</b> , Elementary formal systems .....	38
<b>Kiyoshi AKO</b> , On the Dirichlet problem for quasi-linear elliptic differential equations of the second order .....	45
<b>Yoshikazu NAKAI</b> , On the theory of differentials in commutative rings .....	63
<b>Akira HATTORI</b> , On certain characteristic subgroups of a finite group .....	85
<b>Shigetake MATSUURA</b> , On general systems of partial differential operators with constant coefficients .....	94
<b>V. F. COWLING and W. C. ROYSTER</b> , Some applications of the Weierstrass mean value theorem .....	104
