

## CONTENTS

<b>M. INABA and M. SAITO</b> , Moduli of regular singular parabolic connections with given spectral type on smooth projective curves .....	879
<b>M. MURATA and T. YOSHINAGA</b> , On the solutions of quadratic Diophantine equations II .....	895
<b>Y. KAWAMOTO and H. OSADA</b> , Finite-particle approximations for interacting Brownian particles with logarithmic potentials .....	921
<b>R. V. GURJAR and B. P. PURNAPRAJNA</b> , On the fundamental group of a smooth projective surface with a finite group of automorphisms .....	953
<b>X. LIAO</b> , Chern classes of logarithmic derivations for free divisors with Jacobian ideal of linear type .....	975
<b>L. BIRBRAIR, A. FERNANDES, V. GRANDJEAN and T. GAFFNEY</b> , Blow-analytic equivalence versus contact bi-Lipschitz equivalence .....	989
<b>A. KUZNETSOV</b> , Derived equivalence of Ito–Miura–Okawa–Ueda Calabi–Yau 3-folds .....	1007
<b>S. HURDER and P. G. WALCZAK</b> , Compact foliations with finite transverse LS category .....	1015
<b>H. TSUCHIHASHI</b> , Examples of four dimensional cusp singularities .....	1047
<b>C. DAMIANI and V. FLORENS</b> , Alexander invariants of ribbon tangles and planar algebras .....	1063
<b>Y. HISHIKAWA, M. NISHIO and M. YAMADA</b> , A system of conjugate functions on parabolic Bloch spaces .....	1085
<b>Z. GUO</b> , Scalar curvature of self-shrinker .....	1103
<b>B. COLLINS, T. HASEBE and N. SAKUMA</b> , Free probability for purely discrete eigenvalues of random matrices .....	1111
<b>X. YU</b> , Elliptic fibrations on K3 surfaces and Salem numbers of maximal degree ...	1151
<b>S. ICHIKI</b> , Composing generic linearly perturbed mappings and immersions/injections .....	1165
<b>C. GU</b> , Common reducing subspaces of several weighted shifts with operator weights .....	1185
