

- 205    **Vanishing mean oscillation spaces associated with operators satisfying Davies–Gaffney estimates**  
Yiyu Liang, Dachun Yang, and Wen Yuan
- 249    **Perturbation of a warped product metric of an end and the growth property of solutions to eigenvalue equations**  
Hironori Kumura
- 277    **Quantum unipotent subgroup and dual canonical basis**  
Yoshiyuki Kimura
- 333    **Examples of groups which are not weakly amenable**  
Narutaka Ozawa
- 345    **Leading terms of Thom polynomials and  $J$ -images**  
Yoshifumi Ando
- 369    **Cohomology and  $L$ -values**  
Hiroyuki Yoshida
