Kodai Mathematical Journal Vol. 16, No. 2

SHUKICHI TANNO, The identity map as a harmonic map of a $(4r+3)$ -sphere with deformed metrics	171
MUTSUO OKA, Finiteness of fundamental group of compact convex integral polyhedra	181
HIRONOBU URABE, Some remarks on factorization of entire functions	196
SADAHIRO MAEDA, YOSHIHIRO OHNITA AND SEIICHI UDAGAWA, On slant immersions into Kähler manifolds	205
JUN-SIM CHA, Margolis homology and Morava K -theory for cohomology of the dihedral group	220
SHYUICHI IZUMIYA AND JIANMING YU, How to define singular solutions ..	227
SHINJI YAMASHITA, Sur allures de la densité de Poincaré et ses dérivées au voisinage d'un point frontière	235
TH. HASANIS AND TH. VLACHOS, Surfaces of finite type with constant mean curvature	244
HISASHI ISHIDA, Normal operators constructed from generalized harmonic measures on open Riemann surfaces	253
ZEN-ICHI YOSIMURA, KO -homologies of a few cells complexes	269
OSAMU IKAWA, Harmonic mappings, minimal and totally geodesic immersions of compact Riemannian homogeneous spaces into Grassmann manifolds	295
YUEFEI WANG AND SHUPEI WANG, On meromorphic derivatives	306
GANGDI QIU, On a conjecture of C. C. Yang for the class F of meromorphic functions	318
R.K. NAGAICH, Constancy of holomorphic sectional curvature in indefinite almost Hermitian manifolds	327
SOON MEEN CHOI, Correction to: 3-dimensional space-like submanifolds with parallel mean curvature vector of an indefinite space form	332
