## CONTENTS

Vol. 27, Nos. 1-2, January 1976

|  |     |
|--|-----|
| MITSURU OZAWA, On certain criteria for the left-primeness of entire functions, II .....                                | 1   |
| TETSUO, FUJIMAGARI, Controlled Galton-Watson process and its asymptotic behavior .....                                 | 11  |
| KENTARO YANO AND HITOSI HIRAMATU, On conformal changes of Riemannian metrics .....                                     | 19  |
| JIRI VANZURA, Integrability conditions for polynomial structures.....  | 42  |
| RADU ROSCA, Quantic manifolds with para-coKählerian structure .....  | 51  |
| ZENJIRO KURAMOCHI, On analytic functions in a neighbourhood of boundary points of Riemann surfaces.....                | 62  |
| G.D. DIKSHIT, On absolute Riesz summability factors of Fourier series....  | 84  |
| CHUJI TANAKA, On the asymptotic values for regular functions with bounded characteristic .....                         | 94  |
| KICHIRO TAKAMATSU AND TAKUJI SATO, A $K$ -space of constant holomorphic sectional curvature .....                      | 116 |
| TOSHIHIKO NISHIMOTO, Global solutions of certain fourth order differential equations .....                             | 128 |
| SHOHEI SUGIYAMA, On comparison theorems of nonlinear Volterra integral equations .....                                 | 147 |
| JAMES A. JENKINS, On the sharp form of the three-circles theorem .....   | 155 |
| NOBUYUKI SUITA, On a metric induced by analytic capacity II.....   | 159 |
| SEIYA SASAO, Note on spaces with $H^*( ; Z)=E[x_1, x_2]$ .....   | 163 |
| MITSURU OZAWA, Distribution of zeros and poles and deficiencies of a meromorphic functions of finite genus .....       | 168 |
| D.E. BLAIR, D.K. SHOWERS AND K. YANO, Nearly Sasakian structures....   | 175 |
| MASANORI KISHI, Positive idempotents on a locally compact abelian group .....  | 181 |
| S.I. GOLDBERG AND E.M. MOSKAL, The axiom of spheres in Kaehler geometry .....  | 188 |
| KÔTARO OIKAWA, On angular derivatives of univalent functions.....  | 193 |
| KUNIO NISHIOKA, On the stability of two-dimensional linear stochastic systems .....                                    | 211 |
| L. VANHECKE AND L. VERSTRAELEN, Immersions of codimension two with trivial normal connexion into elliptic spaces ..... | 231 |
| TAKASHI SAKAI, On the spectre of lens spaces .....   | 249 |
| HISAO MIZUMOTO, On harmonic difference forms on a manifold .....   | 257 |
