Synthese

An International Journal for Epistemology, Methodology and Philosophy of Science

Editor-in-Chief:

Jaakko Hintikka, *Dept. of Philosophy, Boston University, USA*

Editors:

James H. Fetzer, *Dept. of Philosophy, University of Minnesota, USA;* **Risto Hilpinen,** *Dept. of Philosophy, University of Turku, Finland;* **Paul Humphreys,** *Dept. of Philosophy, University of Virginia, USA;* **Barry Richards,** *Imperial College of Science, Technology and Medicine, London, UK*

Synthese publishes articles in the theory of knowledge, the general methodological problems of science, such as the problems of scientific discovery and scientific interest, of induction and probability, of causation and of the role of mathematics, statistics and logic in science, the methodological and foundational problems of the different departmental sciences, insofar as they have philosophical interest, those aspects of symbolic logic and of the foundations of mathematics which are relevant to the philosophy and methodology of science, and those facets of the history and sociology of science which are important for contemporary topical pursuits.
Particular attention is paid to the role of mathematical, logical and linguistic methods in the general methodology of science and the foundations of the different sciences, be they physical, biological, behavioral or social.
Most of the issues of *Synthese* are organized into thematic issues, taking the character of symposia dealing with described themes.

Philosophical Studies

An International Journal for Philosophy in the Analytic Tradition

Editor-in-Chief:

Stewart Cohen, *Arizona State University*

Special Editions Editor:

Keith Lehrer, *University of Arizona*

Philosophical Studies was founded in 1950 by Herbert Feigl and Wilfrid Sellars to provide a periodical dedicated to work in analytic philosophy. The journal is devoted to the rapid publication of analytical contributions, particularly (but not exclusively) in epistemology, philosophical logic, the philosophy of language and ethics. Papers applying formal techniques to philosophical problems are particularly welcome. The papers published are models of clarity and precision, dealing with some significant philosophical issues; they are intelligible to philosophers whose expertise lies outside the subject matter of the article. A diligent reader of the journal will be kept informed of the major problems and contributions of contemporary analytic philosophy.

Philosophical Studies is surveyed by *Bulletin Signaletique, Current Contents/Arts & Humanities, Arts & Humanities Citation Index, Informationsdienst fur Philosophie, Linguistic & Language Behavior Abstracts, MLA International Bibliography, The Philosopher's Index, Referativnyi Zhurnal, Revue Philosophique de Louvain, IBZ/IBR, Mathematical Reviews.*

GUIDE TO AUTHORS

The *Journal* aims to provide a common ground where both philosophers and mathematicians can read and publish original and significant work in all areas of philosophical and mathematical logic, as well as the philosophy of language, and the philosophy, history, and foundations of mathematics.

Manuscripts should be sent in triplicate to **Editors, P.O. Box 5, Notre Dame, Indiana 46556, U.S.A.** Manuscripts are accepted for review with the understanding that the same work has not been and will not be published elsewhere, nor is presently submitted elsewhere, and that all persons listed as authors have given their approval for the submission of the paper; further that any person cited as a source of personal communications has approved such citation. Authors will be requested to sign a transfer of copyright to the *Notre Dame Journal of Formal Logic* so that the authors and publishers may be protected from misuse of copyrighted material even during the review process.

Form of Manuscript. All manuscripts must be typewritten in English, **double-spaced** (including notes and references) on one side of 8½ × 11 inch or A4 white paper with 1 inch margins on all sides. To facilitate blind review by one or more readers, all indications of authorship should appear on a detachable cover page only. Handwritten symbols, non-Roman characters, and ambiguous symbols (1 vs. l, o vs. O and 0) should be identified in the margin.
