THE PHILOSOPHER'S INDEX

*An International Quarterly Index
To Philosophical Periodicals*

Expanded Coverage

The Philosopher's Index significantly expanded coverage in 1980. In the past, current issues of *The Philosopher's Index* indexed journal articles only. However, Volume XIV (1980) increased coverage to include original scholarly books in philosophy, plus bibliographies, biographies, translations, textbooks, dissertations, and anthologies. Contributions to anthologies are indexed as well as the work as a whole.

Special Editions

The Philosopher's Index: A Retrospective Index to U.S. Publications from 1940 and The Philosopher's Index: A Retrospective Index to non-U.S. English Language Publications from 1940 greatly enhance coverage of philosophy journals and books on a retrospective basis.

This prestigious Journal, sponsored by the Polish Academy of Sciences, publishes papers on all technical issues of contemporary logic as well as on philosophical issues especially in linguistics and other sciences which depend on logical concepts, methods and results. More specifically, STUDIA LOGICA invites papers on logical systems, their semantics, methodology, and applications. Preference is given to papers which contain new and important technical results. Reviews are not published.

Papers submitted to the Journal should be sent to the Editor-in-Chief or to one of the Collecting Editors

Recent Papers Published:

Consequence Relations of 2-Valued Matrices (*W. Rautenberg*).
Equivalential Logics II (*J. Czelakowski*). Quantification for Peirce's Preferred System of Triadic Logic (*A. R. Turquette*). A New Modal Language with the Operator (*E. Bencivenga and P. W.
