Tokyo, Japan

Nagoya Mathematical Journal is the official journal of the Graduate School of Mathematics, Nagoya University, designed solely for the publication of research papers. However, invited papers and other original papers in mathematics from all over the world are also regularly published in Nagoya Mathematical Journal. Currently, 4 volumes are published each year.

All manuscripts should be typewritten in English, French, or German. Papers should be prepared using $\text{T}_{\text{E}}\text{X}$ if possible, but only the printed hard copy should be submitted (2 copies). Authors submitting old-fashioned typescript are requested to clearly distinguish special symbols and letters such as bold-face, script, German and Greek letters. The editors may request the original $\text{T}_{\text{E}}\text{X}$ files of papers accepted for publication. The journal's $\text{L}^{\text{A}}\text{T}_{\text{E}}\text{X}$ style file and its manual can be obtained from the following URL.

<http://www.math.nagoya-u.ac.jp/nmj/index.html>

Papers should include

- (a) a short abstract of the contents,
- (b) classification numbers at the foot of page 1 according to the 2000 Mathematics Subject Classification, to be found in

<http://www.ams.org/>,

- (c) the author's coordinates, including e-mail address and Fax numbers,
- (d) for papers with long titles, the author's choice of running head (not longer than 50 characters).

As soon as we receive a manuscript, a receipt will be sent to the author. When a manuscript has been sent to a referee, the author will receive another notice. These receipts and notices, however, do not mean anything regarding the acceptability of the paper for publication. If the editorial committee has decided to accept a paper, the author will receive a notice containing the number of the volume in which the paper will appear.

Authors submitting a joint paper must provide instructions as to which author is responsible for proof-reading (only one set of proofs will be provided). Each author, as well as each co-author will have 50 reprints.

The manuscript and general correspondence should be addressed to: Managing editor, Nagoya Mathematical Journal, Graduate School of Mathematics, Nagoya University, Chikusa-ku, Nagoya, 464-8602, Japan.

CONTENTS

Coupet, B., Pan, Y. and Sukhov, A.: Proper holomorphic self-maps of quasi-circular domains in \mathbf{C}^2	1
Zheng, J.-H.: Uniformly perfect sets and distortion of holomorphic functions	17
Harris, A. and Tonegawa, Y.: L^p -curvature and the Cauchy-Riemann equation near an isolated singular point	35
Nagase, M.: Twistor spaces and the adiabatic limits of Dirac operators	53
Futamura, T. and Mizuta, Y.: Existence of functions in weighted Sobolev spaces	75
Zwonek, W.: An example concerning Bergman completeness .	89
Barja, M.A. and Zucconi, F.: On the slope of fibred surfaces	103
Komatsu, T. and Nakano, S.: On the Galois module structure of ideal class groups	133
