# NAGOYA MATHEMATICAL JOURNAL

Table of publications arranged by the alphabetical order of the names of authors

Vol. 1 (1950)-Vol. 16 (1960)

Adachi, M.
1. On the Groups of Cobordism $\Omega^k$. **13** (1958), 135-156

Akaza, T.
1. A Property of Some Poincaré Theta-Series. **16** (1960), 189-194

Araki, S.
1. On the triad Excision Theorem of Blakers and Massey. **6** (1953), 129-136

Auslander, M.
1. On the Dimension of Modules and Algebras, III. Global Dimension. **9** (1955), 67- 77
2. On the Dimension of Modules and Algebras, VI. Comparison of Global and Algebra Dimension. **11** (1957), 61- 65

Azumaya, G.
1. Corrections and Supplementaries to My Paper concerning Krull-Remak-Schmidt's Theorem. **1** (1950), 117-124
2. On Maximally Central Algebras. **2** (1951), 119-150

Bagemihl, F.
1. (and Seidel, W.) Some Remarks on Boundary Behavior of Analytic and Meromorphic Functions. **9** (1955), 79- 85

Batho, E. H.
1. Some Remarks on Non-Commutative Extensions of Local Rings. **14** (1959), 45- 51

Berstein, I.
1. On the Dimension of Modules and Algebras IX. Direct Limits. **13** (1958), 83- 84

Carlitz, L.
1. A Note on Euler Numbers and Polynomials. **7** (1954), 35- 43
2. A Sum Connected with Quadratic Residues. **10** (1956), 1- 7

Chevalley, C.
1. La Notion D'anneau de Décomposition. **7** (1954), 21- 33
2. Sur la Théorie des Variétés Algébriques. **8** (1955), 1- 43

Conrad, P.
1. Ordered Semigroups. **16** (1960), 51- 64

Constantinescu, C.
1. (und Cornea, A.) Über den Idealen Rand und Einige Seiner Anwendungen bei der Klassifikation der Riemannschen Flächen. **13** (1958), 169-233

Cornea, A.
1. On the Behaviour of Analytic Functions in the Neighbourhood of the Boundary of a Riemann Surface. **12** (1957), 55- 58
2. (und Constantinescu, C.) Über den Idealen Rand und Einige Seiner Anwendungen bei der Klassifikation der Riemannschen Flächen. **13** (1958), 169-233

Eilenberg, S.
1. (Ikeda, M. and Nakayama, T.) On the Dimension of Modules and Algebras, I. **8** (1955). 49- 57
2. (and Nakayama, T.) On the Dimension of Modules and Algebras, II. (Frobenius Algebras and Quasi-Frobenius Rings). **9** (1955), 1- 16
3. (Nagao, H. and Nakayama, T.) On the Dimension of Modules and Algebras, IV. Dimension of Residue Rings of Hereditary Rings. **10** (1956), 87- 95
4. (and Nakayama, T.) On the Dimension of Modules and Algebras, V. Dimension of Residue Rings. **11** (1957), 9- 12
5. (Rosenberg, A. and Zelinsky, D.) On the Dimension of Modules and Algebras (VIII). Dimension of Tensor Products. **12** (1957), 71- 93

Funayama, N.
1. Imbedding Infinitely Distributive Lattices Completely Isomorphically into Boolean Algebras. **15** (1959), 71- 81

Furuta, Y.
1. On Meta-Abelian Fields of a Certain Type. **14** (1959), 193-199

Gotô, M.
1. Faithful Representations of Lie Groups. II. **1** (1950), 91-107
2. (and Yamabe, H.) On Continuous Isomorphisms of Topological Groups. **1** (1950), 109-111
3. (and Yamabe, H.) On Some Properties of Locally Compact Groups with no Small Subgroup. **2** (1951), 29- 34
4. (and Murakami, S.) On the Inner Automorphisms of a Compact Group. **4** (1952), 119-123

Hadwiger, H.
1. Zur Isoperimetrischen Ungleichung für $k$-Dimensionale Konvexe Polyeder. **5** (1953), 39- 44
2. Kleine Studie zur Kombinatorischen Geometrie der Sphäre. **8** (1955), 45- 48

Hano, J.
1. (and Morimoto, A.) Note on the Group of Affine Trans-

formations of an Affinely Connected Manifold. **8** (1955), 71- 81
2. On Affine Transformations of a Riemannian Manifold. **9** (1955), 99-109
3. (and Ozeki, H.) On the Holonomy Groups of Linear Connections. **10** (1956), 97-100
4. (and Matsushima, Y.) Some Studies on Kaehlerian Homogeneous Spaces. **11** (1957), 77- 92

Hattori, A.
1. (and Iwahori, N.) On Associative Compositions in Finite Nilpotent Groups. **7** (1954), 145-148

Heins, M.
1. Remarks on the Elliptic Case of the Mapping Theorem for Simply-Connected Riemann Surfaces. **9** (1955), 17- 20
2. The Conformal Mapping of Simply-Connected Riemann Surfaces II. **12** (1957), 139-143

Hewitt, E.
1. (and Zuckerman, H. S.) Integration in Locally Compact Spaces II. **3** (1951), 7- 22

Hida, T.
1. On some Asymptotic Properties of Poisson Process. **6** (1953), 29- 36
2. On the Transition Probability of a Renewal Process. **11** (1957), 41- 51
3. On the Uniform Continuity of Wiener Process with a Multidimensional Parameter. **13** (1958), 53- 61

Hirata, H.
1. On Relative Homological Algebra of Frobenius Extensions. **15** (1959), 17- 28

Hochschild, G.
1. Note on Relative Homological Dimension. **13** (1958), 89- 94

Hu, Sze-Tsen
1. Cohomology Relations in Spaces with a Topological Transformation Group. **5** (1953), 113-125

Huppert, B.
1. Monomiale Darstellung Endlicher Gruppen. **6** (1953), 93- 94

Ikeda, M.
1. On Absolutely Segregated Algebras. **6** (1953), 63- 75
2. (Nagao, H. and Nakayama, T.) Algebras with Vanishing $n$-Cohomology Groups. **7** (1954), 115-131
3 (Eilenberg, S. and Nakayama, T.) On the Dimension of Modules and Algebras, I. **8** (1955), 49- 57

Ikoma, K.
1. On a Property of the Boundary Correspondence under Quasiconformal Mappings. **16** (1960), 185-188

Inaba, E.
1. On the Imbedding Problem of Normal Algebraic Number Fields. **4** (1952), 55- 61

Itô, K.
1. Stochastic Differential Equations on a Differentiable Manifold. **1** (1950), 35- 47

2. On a Formula Concerning Stochastic Differentials. **3** (1951), 55- 65

Itô, N.

1. Note on $p$-Groups. **1** (1950), 113-116
2. Some Studies on Group Characters. **2** (1951), 17- 28
3. On the Degrees of Irreducible Representations of a Finite Group. **3** (1951), 5- 6
4. On the Characters of Soluble Groups. **3** (1951), 31- 48
5. Note on A-groups. **4** (1952), 79- 81
6. On a Theorem of H. F. Blichfeldt. **5** (1953), 75- 77
7. On Finite Groups with Given Conjugate Types I. **6** (1953), 17- 28
8. Über eine zur Frattini-Gruppe duale Bildung. **9** (1955), 123-127

Itô, S.

1. On the Canonical Form of Turbulence. **2** (1951), 83- 92
2. Unitary Representations of Some Linear Groups. **4** (1952), 1- 13
3. Unitary Representations of Some Linear Groups II. **5** (1953), 79- 96

Iwahori, N.

1. (and Hattori, A.) On Associative Compositions in Finite Nilpotent Groups. **7** (1954), 145-148
2. On Real Irreducible Representations of Lie Algebras. **14** (1959), 59- 83

Jans, J. P.

1. On Segregated Rings and Algebras. **11** (1957), 1- 7
2. (and Nakayama, T.) On the Dimension of Modules and Algebras, VII. Algebras with Finite-Dimensional Residue-Algebras. **11** (1957), 67- 76
3. Some Remarks on Symmetric and Frobenius Algebras. **16** (1960), 65- 71

Kandô, T.

1. Strong Regularity in Arbitrary Rings. **4** (1952), 51- 53

Kaplansky, I.

1. On the Dimension of Modules and Algebras, X. A Right Hereditary Ring which is Not Left Hereditary. **13** (1958), 85- 88

Kawahara, Y.

1. A Note on the Differential Forms on Everywhere Normal Varieties. **2** (1951), 93- 94
2. On the Differential Forms on Algebraic Varieties. **4** (1952), 73- 78
3. Remarks on the Differential Forms of the First Kind on Algebraic Varieties. **6** (1953), 37- 40
4. On the Derivations in Maximal Orders of Simple Algebras. **9** (1955), 147-160
5. On the Theory of Differential Forms on Algebraic Varieties. **11** (1957), 13- 39

Kawakami, Y.

1. On Montel's Theorem. **10** (1956), 125-127

Kishi, M.

1. Capacities of Borelian Sets and the Continuity of Potentials. **12** (1957), 195-219
2. Capacitability of Analytic Sets. **16** (1960), 91-109

Kobayashi, S.

1. Espaces à Connexions Affines et Riemanniennes Symétriques. **9** (1955), 25- 37

2. A Theorem on the Affine Transformation Group of a Riemannian Manifold. **9** (1955), 39- 41
3. Holonomy Groups of Hypersurfaces. **10** (1956), 9- 14
4. Induced Connections and Imbedded Riemannian Spaces. **10** (1956), 15- 25
5. Canonical Connections and Pontrjagin Classes. **11** (1957), 93-109
6. (and Nomizu, K.) On Automorphisms of a Kählerian Structure. **11** (1957), 115-124
7. Fixed Points of Isometries. **13** (1958), 63- 68

Komatu, Y.

1. (and Nagura, S.) Distortion Theorems in the Theory of Schlicht Functions. **1** (1950), 25- 33

Kostant, B.

1. On Holonomy and Homogeneous Spaces. **12** (1957), 31- 54
2. A Characterization of Invariant Affine Connections. **16** (1960), 35- 50

Koszul, J. L.

1. Espaces Fibrés Associés et Pré-Associés. **15** (1959), 155-169

Kubota, T.

1. Über die Beziehung der Klassenzahlen der Unterkörper des bizyklischen biquadratischen Zahlkörpers. **6** (1953), 119-127
2. A Note on Units of Algebraic Number Fields. **9** (1955), 115-118
3. Über den Bizyklischen Biquadratischen Zahlkörper. **10** (1956), 65- 85
4. Galois Group of the Maximal Abelian Extension over an Algebraic Number Field. **12** (1957), 177-189
5. Unit Groups of Cyclic Extensions. **12** (1957), 221-229

Kuniyoshi, H.

1. On a Problem of Chevalley. **8** (1955), 65- 67

Kuranishi, M.

1. On Conditions of Differentiability of Locally Compact Groups. **1** (1950), 71- 81
2. On Everywhere Dense Imbedding of Free Groups in Lie Groups. **2** (1951), 63- 71
3. On One-Parameter Subgroups in Finite Dimensional Locally Compact Group with no Small Subgroups. **4** (1952), 89- 96
4. On the Group Structure in Homotopy Groups. **7** (1954), 133-144
5. On the Local Theory of Continuous Infinite Pseudo Groups I. **15** (1959), 225-260

Kurita, M.

1. One Parametric Motion in Klein Spaces. **1** (1950), 19- 23
2. An Extension of Poincaré Formula in Integral Geometry. **2** (1951), 55- 61
3. Characterization of Certain Riemann Spaces by Development. **3** (1951), 81- 90
4. Riemann Space with Two-Parametric Homogeneous Holonomy Group. **4** (1952), 35- 42
5. On the Vector in Homogeneous Spaces. **5** (1953), 1- 33
6. Grouptheoretical Characterization of Projective Space and Conformal Space. **5** (1953), 59- 74
7. On some Formulas about Volume and Surface Area. **6** (1953), 109-117
8. On the Holonomy Group of the Comformally Flat

Riemannian Manifold. **9** (1955), 161–171
9. On the Volume in Homogeneous Spaces. **15** (1959), 201–217
10. A Note on Umbilics of a Closed Surface. **15** (1959), 219–233

Kuroda, S.
1. Über die Klassenzahlen algebraischer Zahlkörper. **1** (1950), 1– 10
2. Intuitionistische Untersuchungen der formalistischen Logik. **2** (1951), 35– 47
3. An Investigation on the Logical Structure of Mathematics (III). Fundamental Deductions. **13** (1958), 21– 52
4. An Investigation on the Logical Structure of Mathematics (IV). Compendium for Deductions. **13** (1958), 123–133
5. An Investigation on the Logical Structure of Mathematics (VI). Consistent V-System $T(V)$ (With Corrections to Part (XII)). **14** (1959), 95–107
6. An Investigation on the Logical Structure of Mathematics (VII). Set-Theoretical Contradictions. **14** (1959), 109–127
7. An Investigation on the Logical Structure of Mathematics (VIII). Consistency of the Natural-Number Theory $T_1(N)$. **14** (1959), 129–158
8. An Investigation on the Logical Structure of Mathematics (XIII). A Method of Programming of Proofs in Mathematics for Electronic Computing Machines. **16** (1960), 195–203

Kuroda, T.
1. A Property of Some Open Riemann Surfaces and Its Application. **6** (1953), 77– 84
2. On Analytic Functions on Some Riemann Surfaces. **10** (1956), 27– 50

Maehara, S.
1. Eine Darstellung der Intuitionistischen Logik in der Klassischen. **7** (1954), 45– 64

Masuda, K.
1. One-Valued Mappings of Groups into Fields. **6** (1953), 41– 52
2. On a Problem of Chevalley. **8** (1955), 59– 63

Matlis, E.
1. Injective Modules over Prüfer Rings. **15** (1959), 57– 69

Matsumoto, K.
1. On Subsurfaces of Some Riemann Surfaces. **15** (1959), 261–274

Matsushima, Y.
1. On a Type of Subgroups of a Compact Lie Group. **2** (1951), 1– 15
2. On the Discrete Subgroups and Homogeneous Spaces of Nilpotent Lie Groups. **2** (1951), 95–110
3. Some Remarks on the Exceptional Simple Lie Group $\mathfrak{F}_4$. **4** (1952), 83– 88
4. On a Theorem Concerning the Prolongation of a Differential System. **6** (1953), 1– 16
5. Sur le Prolongement D'un Pseudogroupe D'isomorphismes Locaux D'une Variété Différentiable. **7** (1954), 103–110
6. Sur les Espaces Homogènes Kählériens d'un Groupe de Lie Réductif. **11** (1957), 53– 60
7. (and Hano, J.) Some Studies on Kaehlerian Homogeneous Spaces. **11** (1957), 77– 92

8. Sur la Structure du Groupe d'Homéomorphismes Analytiques d'une Certaine Variété Kaehlérienne. **11** (1957), 145-150
9. Fibrés Holomorphes sur un Tore Complexe. **14** (1959), 1- 24
10. Espaces homogènes de Stein des groupes de Lie complexes. **16** (1960), 205-218

Morikawa, H.

1. On Abelian Varieties. **6** (1953), 151-170
2. Cycles and Endomorphisms of Abelian Varieties. **7** (1954), 95-102
3. Cycles on Algebraic Varieties. **9** (1955), 173-180
4. Generalized Jacobian Varieties and Separable Abelian Extensions of Function Field. **12** (1957), 231-254
5. On the Existence of Unramified Separable Infinite Solvable Extensions of Function Fields over Finite Fields. **13** (1958), 95-100
6. Correction to my Paper "On the Existence of Unramified Separable Infinite Solvable Extensions of Function Fields over Finite Fields" in Nagoya Mathematical Journal Vol. 13 (1958). **14** (1959), 53- 57
7. On Unramified Separable Abelian $p$-Extensions of Function Fields I. **14** (1959), 223-234

Morimoto, A.

1. A Lemma on a Free Group. **7** (1954), 149-150
2. (and Hano, J.) Note on the Group of Affine Transformations of an Affinely Connected Manifold. **8** (1955), 71- 81
3. Sur le Groupe d'Automorphismes d'un Espace Fibré Principal Analytique Complexe. **13** (1958), 157-168
4. Sur la Classification des Espaces Fibrés Vectoriels Holomorphes Admettant des Connexions Holomorphes sur un Tore Complexe. **15** (1959), 83-154

Moriya, M.

1. Über die Restklassenkörper bewerteter perfekter Körper. **4** (1952), 15- 27

Murakami, S.

1. (and Gotô, M.) On the Inner Automorphisms of a Compact Group. **4** (1952), 119-123
2. Sur Certains Espaces Fibrés Principaux Différentiables et Holomorphes. **15** (1959), 171-199

Nagami, K.

1. Baire Sets, Borel Sets and Some Typical Semi-Continuous Functions. **7** (1954), 85- 93
2. On the Dimension of Paracompact Hausdorff Spaces. **8** (1955), 69- 70
3. Paracompactness and Strong Screenability. **8** (1955), 83- 88

Nagano, T.

1. Transformation Groups with $(n-1)$-Dimensional Orbits on Non-Compact Manifolds. **14** (1959), 25- 38
2. Homogeneous Sphere Bundles and the Isotropic Riemann Manifolds. **15** (1959), 29- 55

Nagao, H.

1. Note on the Cohomology Groups of Associative Algebras. **6** (1953), 85- 92
2. (Ikeda, M. and Nakayama, T.) Algebras with Vanishing $n$-Cohomology Groups. **7** (1954), 115-131

3. (Eilenberg, S. and Nakayama, T.) On the Dimension of Modules and Algebras, IV. Dimension of Residue Rings of Hereditary Rings. **10** (1956), 87- 95

Nagata, M.

1. On the Structure of Complete Local Rings. **1** (1950), 63- 70
2. Note on Subdirect Sums of Rings. **2** (1951), 49- 53
3. Some Studies on Semi-local Rings. **3** (1951), 23- 30
4. On Krull's Conjecture concerning Valuation Rings. **4** (1952), 29- 33
5. On the Theory of Henselian Rings. **5** (1953), 45- 57
6. Corrections to My Paper "On the structure of Complete Local Rings." **5** (1953), 145-147
7. Some Remarks on Local Rings. **6** (1953), 53- 58
8. (Nakayama, T. and Tuzuku, T.) On an Existence Lemma in Valuation Theory. **6** (1953), 59- 61
9. On the Theory of Henselian Rings, II. **7** (1954), 1- 19
10. An Example of Normal Local Ring which is Analytically Ramified. **9** (1955), 111-114
11. Corrections to My Paper "On Krull's Conjecture concerning Valuation Rings". **9** (1955), 209-212
12. On the Chain Problem of Prime Ideals. **10** (1956), 51- 64

Nagura, S.

1. (and Komatu, Y.) Distortion Theorems in the Theory of Schlicht Functions. **1** (1950), 25- 33

Nakai, M.

1. On a Ring Isomorphism Induced by Quasiconformal Mapping. **14** (1959), 201-221
2. A Function Algebra on Riemann Surfaces. **15** (1959), 1- 7
3. Algebraic Criterion on Quasiconformal Equivalence of Riemann Surfaces. **16** (1960), 157-184

Nakamura, K.

1. Über die Ordnung Gewisser Untergruppen von $GL(q,p)$. **12** (1957), 191-193

Nakayama, T.

1. Construction and Characterization of Galois Algebras with Given Galois Group. **1** (1950), 11- 17
2. (and Osima, M.) Note on Blocks of Symmetric Groups. **2** (1951), 111-117
3. A Remark on Finitely Generated Modules. **3** (1951), 139-140
4. Note on an Ordering Theorem for Subfields. **4** (1952), 125-129
5. Note on Galois Cohomology. **5** (1953), 97-104
6. (Nagata, M. and Tuzuku, T.) On an Existence Lemma in Valuation Theory. **6** (1953), 59- 61
7. On Absolutely Segregated Algebras and Relative 3-Cohomology Groups of an Algebra. **6** (1953), 177-185
8. (Ikeda, M. and Nagao, H.) Algebras with Vanishing $n$-Cohomology Groups. **7** (1954), 115-131
9. (Eilenberg, S. and Ikeda, M.) On the Dimension of Modules and Algebras, I. 8 (1955), 49- 57
10. (and Eilenberg, S.) On the Dimension of Modules and Algebras, II. (Frobenius Algebras and Quasi-Frobenius Rings). **9** (1955), 1- 16

11. A Remark on Finitely Generated Modules, II. **9** (1955), 21- 23
12. (Eilenberg, S. and Nagao, H.) On the Dimension of Modules and Algebras, IV. Dimension of Residue Rings of Hereditary Rings. **10** (1956), 87- 95
13. (and Eilenberg, S.) On the Dimension of Modules and Algebras, V. Dimension of Residue Rings. **11** (1957), 9- 12
14. (and Jans, J. P.) On the Dimension of Modules and Algebras, VII. Algebras with Finite-Dimensional Residue-Algebras. **11** (1957), 67- 76
15. On Modules of Trivial Cohomology over a Finite Group, II. (Finitely Generated Modules) **12** (1957), 171-176
16. Note on Complete Cohomology of a Quasi-Frobenius Algebra. **13** (1958), 115-121
17. A Remark on the Commutativity of Algebraic Rings. **14** (1959), 39- 44
18. (and Tsuzuku, T.) A Remark on Frobenius Extensions and Endomorphism Rings. **15** (1959), 9- 16
19. A Remark on Relative Homology and Cohomology Groups of a Group. **16** (1960), 1- 9

Nijenhuis, A.

1. A Noth on Infinitesimal Holonomy Groups. **12** (1957), 145-146

Nisida, T.

1. (and Sirao, T.) On Some Asymptotic Properties concerning Brownian Motion. **4** (1952), 97-101

Nomizu, K.

1. Studies on Riemannian Homogeneous Spaces. **9** (1955), 43- 56
2. Reduction Theorem for Connections and its Application to the Problem of Isotropy and Holonomy Groups of a Riemannian Manifold. **9** (1955), 57- 66
3. Un Théorème sur les Groupes D'holonomie. **10** (1956), 101-103
4. On Infinitesimal Holonomy and Isotropy Groups. **11** (1957), 111-214
5. (and Kobayashi, S.) On Automorphisms of a Kählerian Structucture. **11** (1957), 115-124

Noshiro, K.

1. A Theorem on the Cluster Sets of Pseudo-Analytic Functions. **1** (1950), 83- 89
2. Open Riemann Surface with Null Boundary. **3** (1951), 73- 79

Ohtsuka, M.

1. Dirichlet Problems on Riemann Surfaces and Conformal Mappings. **3** (1951), 91-137
2. On the Behavior of an Analytic Function about an Isolated Boundary Point. **4** (1952), 103-108
3. On a Covering Surface over an Abstract Rimann Surface. **4** (1952), 109-118
4. Note on the Harmonic Measure of the Accessible Boundary of a Covering Riemann Surface. **5** (1953), 35- 38
5. Boundary Components of Riemann Surfaces. **7** (1954), 65- 83
6. On Exceptional Values of a Meromorphic Function. **9** (1955), 119-121
7. Sur un Théorème Etoilé de Gross. **9** (1955), 191-207
8. Generalizations of Montel-Lindelöf's Theorem on Asymptotic Values. **10** (1956), 129-163

9. Remarks to the Paper "On Montel's Theorem" by Kawakami. **10** (1956), 165–169
10. On Boundary Values of an Analytic Transformation of a Circle into a Riemann Surface. **10** (1956), 171–175
11. Sur les Ensembles d'Accumulation Relatifs à des Transformations Localement Pseudo-Analytiques au Sens de Pfluger-Ahlfors. **11** (1957), 131-144
12. Capacité d'Ensembles de Cantor Généralisés. **11** (1957), 151–160
13. Capacité des Ensembles Produits. **12** (1957), 95–130

Ono, K.

1. A Set Theory Founded on Unique Generating Principle. **12** (1957), 151–159
2. On Some Properties of Binary Relations. **12** (1957), 161–170

Ono, T.

1. A Generalization of the Hahn-Banach Theorem. **6** (1953), 171–176
2. On the Compacity of the Orthogonal Groups. **7** (1954), 111–114
3. Arithmetic of Orthogonal Groups, II. **9** (1955), 129–146
4. On Algebraic Groups Defined by Norm Forms of Separable Extensions. **11** (1957), 125–130

Osima, M.

1. (and Nakayama, T.) Note on Blocks of Symmetric Groups. **2** (1951), 111–117

Ozeki, H.

1. (and Hano, J.) On the Holonomy Groups of Linear Connections. **10** (1956), 97–100
2. Infinitesimal Holonomy Groups of Bundle Connections. **10** (1956), 105–123

Ribenboim, P.

1. Sur une Conjecture de Krull en Théorie des Valuations. **9** (1955), 87– 97

Rosenberg, A.

1. (Eilenberg, S. and Zelinsky, D.) On the Dimension of Modules and Algebras (VIII). Dimension of Tensor Products. **12** (1957), 71– 93

Sasaki, S.

1. A Global Formulation of the Fundamental Theorem of the Theory of Surfaces in Three Dimensional Euclidean Space. **13** (1958), 69– 82

Seidel, W.

1. (and Bagemihl, F.) Some Remarks on Boundary Behavior of Analytic and Meromorphic Functions. **9** (1955), 79– 85
2. Holomorphic Functions with Spiral asymptotic Paths. **14** (1959), 159–171

Shimada, N.

1. (and Uehara, H.) On a Homotopy Classification of Mappings of an $(n+1)$-dimensional Complex into an Arcwise Connected Topological Space which is Aspherical in Dimensions less than $n$ $(n>2)$. **3** (1951), 67– 72
2. (and Uehara, H.) Classification of Mappings of an $(n+2)$-Complex into an $(n-1)$-Connected Space with Vanishing $(n+1)$-st Homotopy Group. **4** (1952), 43– 50
3. Homotopy Classification of Mappings of a 4-Dimensional

Complex into a 2-Dimensional Sphere. **5** (1953), 127–144
4. Differentiable Structures on the 15-Sphere and Pontrjagin Classes of Certain Manifolds. **12** (1957), 59– 69

Shiraiwa, K.
1. A Remark on $(\pi, n)$-Type $CW$-Complexes. **12** (1957), 25– 30
2. Relation between Higher Obstructions and Postnikov Invariants. **16** (1960), 21– 33

Shizuma, R.
1. Fibre Bundles over Spheres. **1** (1950), 59– 61
2. Über Geschlossene Geodätische auf Geschlossenen Mannigfaltigkeiten. **13** (1958), 101–114

Sirao, T.
1. (and Nisida, T.) On Some Asymptotic Properties concerning Brownian Motion. **4** (1952), 97–101
2. On Some Asymptotic Properties Concerning Homogeneous Differential Processes. **6** (1953), 95–107
3. On the Continuity of Brownian Motion with a Multidimensional Parameter. **16** (1960), 135–156

Sridharan, R.
1. A Generalization of the Almost Zero Theory. **14** (1959), 85– 93

Storvick, D. A.
1. On Pseudo-Analytic Functions. **12** (1957), 131–138
2. Relative Distance and Quasi-Conformal Mappings. **16** (1960), 111–117

Tanaka, N.
1. Projective Connections and Projective Transformation. **12** (1957), 1– 24

Tatuzawa, T.
1. On the Product of $L(1, \chi)$. **5** (1953), 105–111
2. On the Hecke-Landau $L$-series. **16** (1960), 11– 20

Togari, Y.
1. On Ramified Riemann Domains. **14** (1959), 173-191

Tsuji, M.
1. Some Theorems on Open Riemann Surfaces. **3** (1951), 141–145
2. Theory of Meromorphic Functions on an Open Riemann Surface with Null Boundary. **6** (1953), 137–150

Tsuzuku, T.
1. (Nagata, M. and Nakayama, T.) On an Existence Lemma in Valuation Theory. **6** (1953), 59– 61
2. (and Nakayama, T.) A Remark on Frobenius Extensions and Endomorphism Rings. **15** (1959), 9– 16

Uehara, H.
1. A Group of Automorphisms of the Homotopy Groups. **2** (1951), 73– 82
2. On a Hopf Homotopy Classification Theorem. **3** (1951), 49– 54
3. (and Shimada, N.) On a Homotopy Classification of Mappings of an $(n+1)$-dimensional Complex into an Arcwise Connected Topological Space which is Aspherical in Dimensions less than $n$ $(n>2)$. **3** (1951), 67– 72
4. (and Shimada, N.) Classification of Mappings of an $(n+2)$-Complex into an $(n-1)$-Connected Space with

Vanishing $(n+1)$-st Homotopy Group. **4** (1952), 43- 50

Umezawa, T.

1. Über die Zwischensysteme der Aussagenlogik. **9** (1955), 181–189
2. On an Application of Intermediate Logics. **16** (1960), 119–133

Wang, H. C.

1. On Invariant Connections over a Principal Fibre Bundle. **13** (1958), 1- 19

Zelinsky, D.

1. (Eilenberg, S. and Rosenberg, A.) On the Dimension of Modules and Algebras (VIII). Dimension of Tensor Products. **12** (1957), 71- 93

Zuckerman, H. S.

1. (and Hewitt, E.) Integration in Locally Compact Spaces II. **3** (1951), 7- 22

Yamabe, H.

1. (and Gotô, M.) On Continuous Isomorphisms of Topological Groups. **1** (1950), 109-111
2. (and Gotô, M.) On Some Properties of Locally Compact Groups with no Small Subgroup. **2** (1951), 29- 34

Yano, K.

1. Sur un Théorème de M. Matsushima. **12** (1957), 147-150

Yokoi, H.

1. On Unit Groups of Absolute Abelian Number Fields of Deg. $pq$. **16** (1960), 73- 81
2. On the Ring of Integers in an Algebraic Number Field as a Rep. Module of Galois Group. **16** (1960), 83- 90

Yosida, K.

1. On Titchmarsh-Kodaira's Formula concerning Weyl-Stone's Eigenfunction Expansion. **1** (1950), 49- 58
2. Integrability of the Backward Diffusion Equation in a Compact Riemannian Space. **3** (1951), 1- 4
3. On the Existence of the Resolvent Kernel for Elliptic Differential Operator in a Compact Riemann Space. **4** (1952), 63- 72
4. Correction to My Paper "On Titchmarsh-Kodaira's Formula Concerning Weyl-Stone's Eigenfunction Expansion" in Nagoya Mathematical Journal, Vol. 1 (1950), 49–58. **6** (1953), 187–188
