

NAGOYA MATHEMATICAL JOURNAL

Volume 206

June 2012

CONTENTS

Peters, C., and Saito, M. Lowest weights in cohomology of variations of Hodge structure	1
Fu, H.-P., and Yang, D.-Y. Vanishing theorems on complete manifolds with weighted Poincaré inequality and applications	25
Jiang, Z. A Noether-Lefschetz theorem for varieties of r -planes in complete intersections	39
Kawakita, M. Supplement to classification of threefold divisorial contractions	67
Dimca, A. Tate properties, polynomial-count varieties, and monodromy of hyperplane arrangements	75
Hashimoto, K. Finite symplectic actions on the $K3$ lattice	99
