CONTENTS

Henry L. Alder, *Generalizations of the Rogers-Ramanujan identities* 161

William G., Bade, *Unbounded spectral operators* 373

William G. Bade, *Weak and strong limits of spectral operators* 393

E. M. Beesley, *Concerning total differentiability of functions of class P* 169

H. D. Brunk, *On the growth of functions having poles or zeros on the positive real axis* 1

L. Carlitz, *The number of solutions of some special equations in a finite field* 207

Paul Civin, *Orthonormal cyclic groups* 481

K. L. Cooke, *The rate of increase of real continuous solutions of algebraic differential-difference equations of the first order* 483

J. Copping, *Application of a theorem of Pólya to the solution of an infinite matrix equation* 21

M. Cotlar, *On a theorem of Beurling and Kaplansky* 459

Philip Davis, *Linear functional equations and interpolation series* 503

Nelson Dunford, *Spectral operators* 321

George E. Forsythe, *Asymptotic lower bounds for the frequencies of certain polygonal membranes* 467

Marshall Hall Jr., *On a theorem of Jordan* 219

Fritz Herzog and George Piranian, *Sets of radial continuity of analytic functions* 533

D. G. Higman, *Remarks on splitting extensions* 545

J. D. Hill, *Remarks on the Borel property* 227

James R. Jackson, *On the existence problem of linear programming* 29

Margaret Jackson, *Transformations of series of the type* ${}_3\Psi_3$ 557

Shizuo Kakutani, *An example concerning uniform boundedness of spectral measures* 363

V. L. Klee, Jr., *Invariant extension of linear functionals* 37

Joseph Lehner, *Note on the Schwarz triangle functions* 243

Arthur E. Livingston, *A generalization of an inequality due to Beurling* 251

Shu-Teh Chen Moy, *Characterizations of conditional expectation as a transformation on function spaces* 47

Hukukane Nikaidô, *On von Neumann's minimax theorem* 65

G. M. Petersen, *Methods of summation* 73

George Piranian, See Fritz Herzog and George Piranian 533

G. Power, *Some perturbed electrostatic fields* 79
M. H. Protter, *The two noncharacteristic problem with data partly on the parabolic line* 99
S. E. Rauch, *Mapping properties of Cesàro sums of order two of the geometric series* 109
Edgar Reich, *An inequality for subordinate analytic functions* 259
Gerson B. Robison, *Invariant integrals over a class of Banach spaces* 123
P. C. Rosenbloom, *Comments on the preceding paper by Herzog and Piranian* 539
Herman Rubin and Patrick Suppes, *Transformations of systems of relativistic particle mechanics* 563
D. R. Scholz, *Some minimum problems in the theory of functions* 275
J. Schwartz, *Perturbations of spectral operators, and applications* I. *Bounded perturbations* 415
A. Seidenberg, *On the dimension theory of rings* (II) 603
J. C. Shepherdson, *On two problems of Kurepa* 301
Patrick Suppes, See Herman Rubin and Patrick Suppes 563
Richard S. Varga, *Eigenvalues of circulant matrices* 151
A. Wald, *Congruent imbedding in F-metric spaces* 305
Gordon L. Walker, *Fermat's theorem for algebras* 317
John Wermer, *Commuting spectral measures on Hilbert space* 355
Bertram Yood, *Difference algebras of linear transformations on a Banach space* ... 615

Mathematical papers intended for publication in the *Pacific Journal of Mathematics* should be typewritten (double spaced), and the author should keep a complete copy. Manuscripts may be sent to any of the editors; all other communications to the editors should be addressed to the managing editor, E.F. Beckenbach, at the address given above.

50 reprints of each article are furnished free of charge; additional copies may be obtained at cost in multiples of 50.

The *Pacific Journal of Mathematics* is published quarterly, in March, June, September, and December. The price per volume (4 numbers) is $12.00; single issues, $3.50; back numbers (Volumes 1, 2, 3) are available at $2.50 per copy. Special price to individual faculty members of supporting institutions and to individual members of the American Mathematical Society: $4.00 per volume; single issues, $1.25.

Subscriptions, orders for back numbers, and changes of address should be sent to the publishers, University of California Press, Berkeley 4, California.

Printed at Ann Arbor, Michigan. Entered as second class matter at the Post Office, Berkeley, California.
