

Sumari

Articles

R. Mazurek, M. Ziemkowski , Duo, Bézout and distributive rings of skew power series	257–271
N. Badr, E. Russ , Interpolation of Sobolev spaces, Littlewood-Paley inequalities and Riesz transforms on graphs	273–328
A. El Kacimi, R. Parthasarathy , Skew-product for group-valued edge labellings of Bratteli diagrams	329–354
S. Antontsev, S. Shmarev , Anisotropic parabolic equations with variable nonlinearity	355–399
A. G. O’Farrell, I. Short , Reversibility in the diffeomorphism group of the real line	401–415
H.-K. Kwon, S. Treil , Similarity of operators and geometry of eigenvector bundles	417–438
L. S. Kazarin, A. Martínez-Pastor, M. D. Pérez-Ramos , On the product of two π -decomposable soluble groups	439–456
S. Boutayeb , Heat kernel lower Gaussian estimates in the doubling setting without Poincaré inequality	457–479
E. Amar , A Carleson type condition for interpolating sequences in the Hardy spaces of the ball of \mathbb{C}^n	481–488
F. Gautero, M. Heusener , Cohomological characterization of relative hyperbolicity and combination theorem	489–514
J.-F. Lafont , A note on strong Jordan separation	515–525
