

CONTRIBUTIONS

Real Analysis Exchange offers several ways for you to express your support for various aspects of our publication and our organization. Giving opportunities fall into two categories:

A. Production Support

1. **General Operations Fund.** The funds that come in from subscription fees do not cover the cost of producing the journal, *Real Analysis Exchange* and maintaining the website. Additional support comes from the Mathematics Library at Michigan State University in return for several publications that we get in exchange for our journal. By contributing to this fund you will help us meet our operating expenses.
2. **Special Subscribers Fund.** This fund helps pay subscriptions costs for approximately 40 subscribers for whom the cost is prohibitive. In spite of generous contributions made by many of our individual subscribers, the fund doesn't cover the full cost of these subscriptions. By contributing to this fund, you will help us help others.

Contributions to these funds may be included with your subscription payment and are tax deductible for U.S. taxpayers. Please make checks payable to Michigan State University. To contribute by credit card, indicate VISA or MasterCard, your account number, expiration date, amount to be charged, and supply your signature. Send the information to:

Michigan State University Press
1405 South Harrison Rd., Suite 25
East Lansing, MI 48823-5245
USA

B. Conference Support.

1. **Vasile Ene Memorial Fund.** *Real Analysis Exchange* established this endowment fund with a contribution of \$1,000.00. Revenue will be used to pay the living expenses of a young Romanian mathematician attending the annual summer symposia sponsored by Real Analysis Exchange. The fund honors the memory of Vasile Ene, who died November 11, 1998. Reading any of the past issues of Real Analysis Exchange will

illustrate the breadth of Vasile's contributions to real variables. A gift to this fund would be a fitting tribute to his many contributions.

2. **Summer Symposium Fund.** This fund will serve as seed money for the purpose of attracting outside funding for our annual summer symposium. Funding agencies look more favorably on grant proposals that have some funds available and seek additional support.

Contributions to these two funds must be in the form of a check payable to Real Analysis Exchange and mailed to:

Mathematics Department
Michigan State University
East Lansing, MI 48824-1027
