

VOLUME 28 NO.1 2002-03  
REAL ANALYSIS  
EXCHANGE

CONTENTS

EDITORIAL MESSAGES . . . . .	1
CONTRIBUTIONS . . . . .	3
CONFERENCE ANNOUNCEMENTS	
Summer Symposium in Real Analysis XXVII	
June 23-29, 2003 Opava, Czech Republic . . . . .	5
RESEARCH ARTICLES	
Zbigniew Grande	
Quasicontinuity and Measurability of Functions of Two Variables . . . . .	7
Francis Jordan	
Ideals of Compact Sets Associated with Borel Functions . . . . .	15
Radu Miculescu	
Approximations by Lipschitz Functions Generated by Extensions . . . . .	33
Zbigniew Grande	
On the Sums of Functions Satisfying the Condition $(s_1)$ . . . . .	41
Lee Tuo-Yeong	
The Sharp Riesz-Type Definition for the Henstock-Kurzweil Integral . . . . .	55
Aleksander Maliszewski	
Products of Bounded Darboux and Almost Continuous Functions . . . . .	71
Aleksander Maliszewski	
Comparable Almost Continuous Functions . . . . .	87
Aleksander Maliszewski and Piotr Sworowski	
A Characterization of $H_1$ -Integrable Functions . . . . .	93
Harvey Rosen	
Sierpinski-Zygmund Uniform Limits of Extendable Connectivity Functions . . . . .	105
D. J. Dewsnap and P. Fischer	
Convergence of Koenigs' Sequences . . . . .	111
A. Linero	
Common Fixed Points for Commuting Courant Maps . . . . .	121
Roman Dwilewicz	
An Estimate of the First Derivative by the Laplacian . . . . .	145
A. Boccuto and B. Riečan	
A Note on a Pettis-Kurzweil-Henstock Type Integral in Riesz Spaces . . . . .	153
R. Camerlo and U. B. Darji	
Construction of Borel Inseparable Coanalytic Sets . . . . .	163
INROADS	
D. N. Sarkhel	
On Approximate Derivatives and Krzyzewski-Foran Lemma . . . . .	175
Krzysztof Płotka	
The Ideal of Sierpinski-Zygmund Sets on the Plane . . . . .	191
A. B. Kharazishvili	
On Measurability Properties Connected with the Superposition Operator . . . . .	199
Michael W. Botsko	
A Simple Proof of the Derivative of the Indefinite Riemann-Complete Integral . . . . .	209
Piotr Zakrzewski	

On a Construction of Universally Small Sets . . . . .	215
David Preiss and Louise Rolland	
Regularity of Lipschitz Functions on the Line . . . . .	221
Adam Coffman, David Legg, and Yifei Pan	
A Taylor Series Condition for Harmonic Extension . . . . .	229
Marek Małolepszy	
On Natural Functions and Lipschitz Functions . . . . .	249
