CASPER GOFFMAN MEMORIAM iii
ERRATA
 Natasha Samko
 Errata: On Non-Equilibrated Almost Monotonic Functions of the
 Zygmund-Bary-Stechkin Class 1
RESEARCH ARTICLES
 Ewa Strońska
 On the Maximal Families for Some Classes of Strongly
 Quasicontinuous Functions on \mathbb{R}^m 3
 Emma D’Aniello and Udayan B. Darji
 Smooth Images of the Irrationals 19
 Yuri Dimitrov and G. A. Edgar
 Solutions of Self-Differential Functional Equations 29
 Diego Rojas-Rebolledo
 Using Determinacy to Inscribe Compact Non- σ -Porous Sets into
 Non- σ -Porous Projective Sets 55
 Károly Simon and Boris Solomyak
 Visibility for Self-Similar Sets of Dimension One in the Plane . . . 67
 Robert Menkyna
 On a Special Subclass of the Set of Derivatives 79
 Wenxia Li
 Points of Infinite Derivative of Cantor Functions 87
 S. D’Asero, V. Pata, P. Ursino
 On a Generalized Notion of Differentiability 97
 Mats Bodin
 Wavelets and Besov Spaces on Mauldin-Williams Fractals 119
 Stephen Abbott, J. M. Anderson, Loren D. Pitt
 Slow Points for Functions in the Zygmund Class Λ_d^* 145
 F. Mazzone and E. Schwindt
 A Minimax Formula for the Best Natural $C([0, 1])$ -Approximate
 by Nondecreasing Functions 171
 Arnold W. Miller
 Half of an Inseparable Pair 179
 Zbigniew Grande
 On the Continuity of Symmetrically Cliquish or Symmetrically
 Quasicontinuous Functions 195

INROADS

Agnieszka Małek	
A Classification of Baire One Star Functions	205
Katarína Janková	
On Measures of Chaos for Distributionally Chaotic Maps	213
Craig Cowan	
An Elementary Remark on the Intersection of Sets	221
Roberto Pincioli	
On the Independence of a Generalized Statement of Egoroff's Theorem from ZFC after T. Weiss	225
Cameron Byerley and Russell A. Gordon	
Measures of Aberrancy	233
Yuan-Chuan Li	
A Note on an Identity of the Gamma Function and Stirling's Formula	267
Renata Wiertelak	
A Generalization of the Density Topology with Respect to Category	273
