

EDITORIAL MESSAGES

By Paul D. Humke

Thanks. Particular thanks are due to our dedicated and energetic Assistant Editors, Sarah Sprague of St. Olaf College, and Michael White of Washington and Lee University for their work with the *Exchange* during this past year. It is my pleasure to introduce you to our new Assistant Editor, Margaret Flint of St. Olaf College who will continue to work for the *Exchange* after Sarah graduates this spring. Many thanks too for many years of dedicated work go to outgoing Contributing Editors Daniel Mauldin and Udayan Darji; you will be missed.

Welcome. This year we welcome Marianna Csórnyei and Ireneusz Reclaw to our Board of Contributing Editors and a belated welcome to Ursula Molter, Lars Olsen and Luisa DiPiazza who joined us a year ago.

Jan Lipinski is Celebrated. On October 4, 2010 and on the fiftieth anniversary of the awarding of his doctorate, the University of Łódź (Poland) hosted a celebration of the life and work of Jan Lipinski. Jan has contributed deeply to the field of real functions in general and to the *Real Analysis Exchange* in particular. We are most pleased to include a description of this celebration in this issue of the *Exchange*.

Author Class File. Our raex.cls L^AT_EX classfile is used with every paper published in the *Exchange*. This classfile utilizes a format for entering author, title and other information that is particularly convenient for extracting that information for the various databases that list the *Exchange*. An author version of the raex.cls classfile is available at our website: www.stolaf.edu/analysis.

Advertisements. Please note the advertisements at the end of each issue, which may be of interest to *Exchange* readers. Others promote Michigan State University Press publications and therefore help support the production of our journal. If you have written a book, or have an item of interest you wish to publicize in the Journal, please contact the Michigan State University Press Journals Division.

Michigan State University Press. If you are contemplating writing a textbook on a subject in mathematics, or a memoir, please consider using the Michigan State University Press as your publisher. The Press is a non-profit organization affiliated with Michigan State University that offers superior service and much lower costs than commercial publishers, along with complimentary advertising in *Real Analysis Exchange*.

Website. We encourage you to visit our website and invite your feedback regarding the content. The address is:
