EDITORIAL MESSAGES

By Paul D. Humke and Clifford E. Weil

For the past few years Ben Grommes, one of the many talented student at St. Olaf College, has been helping us produce these issues. He is graduating this year and we wish him well. His efforts have made our jobs easier. Thanks, Ben. Once again we wish to offer our sincere thanks to Jana Chlebik, who takes the files we get from our authors and converts them into the LaTeX style for the *Real Analysis Exchange*. We also welcome Gabriela Ene to our group of valuable helpers. She is typing papers we accept in hard copy form into LaTeX. We thank her for the help she has given us to date and look forward to her continued contributions. Without the help of these dedicated people, we would not be able to publish as many articles as we do in each issue.

We reminder our readers once again of the Special Subscriber's Fund. This fund covers part of the cost for the subscriptions of those who find it difficult or impossible to pay for their individual subscriptions, but who profit greatly from reading the *Real Analysis Exchange*. We invite those of you who can afford to do so, to contribute generously to this fund. Contributions to the Fund should be made by check payable to Real Analysis Exchange and mailed to
